Franklin County, Ohio: A Collection Of Reminiscences Of The Early Settlement Mar 17 2022 It is the design of this book to preserve for the people of Franklin County an imperishable record of its early history — now existing only in scattering and detached papers and records, which are every year wasting away. To write the history of a single county, may to some appear like a very small business; while to others it is considered very desirable that someone should do so in every county. How else are the names and memory of our early settlers and friends to be preserved? And who is there that would not be pleased to look back, or to have his children look back, upon some record of his early days, and of departed friends? . It has been the writer's object in this

compilation, to give a correct statement of all events worthy of remembrance, with their proper dates, so as to form a book of ready reference, such as will be convenient and interesting to all residents of the county.
