Gregory Dishon, founder of American Dream Mortgage Company, sat in his well hidden, high-rise

office a few blocks away listening as he watched the entire exchange between his top producer, Jonathan Franks, and agent Eve Campbell of the NCCOB. The whole inquiry had taken less than 30 minutes. Frank's reaction, or lack of, when told about Thorne, was unsettling. Dishon assumed Franks would lead him to Thorne. Sean Thorne had become a liability that needed to be neutralized, and now, possibly, Franks. Thorne eluded Dishon's best and disappeared into thin air. Thorne had to be found, at any cost. Watching every move Franks made from this point was no longer an option; it was now a way of life. But with this new speed bump he would have to be very cautious. Having the government, state or federal, looking into his affairs was not something for which he was prepared. Dishon felt he might have to tread lightly, possibly shutting down his operation and reopening elsewhere. Though he never got a close look at agent Campbell, there was something prophetic about the way she carried herself. Following the success of his first book, *Drag Racing 101*, where IH Racing's Team Owner Ike Heckler Jr. explains how to build your first race car and secure sponsorship, Ike now brings you *Drag Racing 201 – Racing in the New Economy*. After racing at NHRA tracks in the northeast and southeast for the past 10 years in a booming economy where securing sponsorships was relatively easy, Ike takes you on an exciting journey through 2010 and explains what it is like to uproot your personal life in order to pursue the goal of semi-pro drag racing. With over 52 career round wins and national media exposure from SPEED TV's *Pinks All Out*, NHRA's National Dragster, and NMCA's *Fastest Street Car* magazine, Ike has secured corporate sponsorships from Lucas Oil, VP Racing Fuels, WIX Filters, O'Reilly Auto Parts, ReMax Realty, Holiday Inn Hotels & Resorts, CARQUEST Auto Parts, and Ken's Speed & Machine. IH Racing's primary sponsor, Premier Properties of the Space Coast, is owned by Mr. Heckler and develops residential and commercial properties in southeast Florida. In *Drag Racing 201* Ike explains how to use your own company together with your other sponsors to be able to fund a full race season and be able to travel the hundreds of miles from racetrack to racetrack economically. From getting into the Final 32 at the *Pinks All Out* event in West Palm, FL to making the *WIX All Out 16* at the *Pinks All Out* event at zMax Dragway in Charlotte, Ike brings you along to all the other races and other fun events he was able to attend in 2010 with the help of good friends and sponsors. You will also ride along as he moves from Florida to North Carolina, then back to Florida just so he could honor his commitment to all his sponsors and race the season. He will also show you how the degrading economy affected his racing operation in 2010 and how he had to adjust and sacrifice his personal life to be able to race and survive. *Drag Racing 201* then looks into the future of the sport and projects how it may look a few years from now and gives the reader some valuable tips on how to afford racing a full season and how the racer may have to live differently in order to race and live their dream. Ike also gives the reader some valuable sponsorship tips along the way that will help with sponsor exposure and could make securing sponsorships a little easier. This 80 page full color book has over 75 pictures highlighting the West Palm FL, Charlotte NC, and the Bristol TN *Pinks All Out* events (and getting on SPEED TV), the Atlanta, NHRA Unleashed event, and what it feels like to work for an NHRA national event. If your goal is to drag race in the New Economy, this book is a must read that will save you money and increase your sponsor exposure !! When an explosion rips through the home of Gulf War veteran Clarence Davenport, Secret Service Agent John Wallace and White House aide Molly Pemberton are certain that Davenport, the assassin who killed President Butler, had killed himself. President Silver, the former Education Secretary who became President when Davenport killed all other legal successors to the Presidency, informs the nation that the crime of the century has been solved and that the perpetrator is dead, only to have to admit, days later, that Davenport had escaped. National outrage at Davenport's escape escalates, fueled by Senator Jeb Davies' political ambition and his hatred of Ben Silver. Davenport, the world's most sought after fugitive, with no other place to go, is recruited by Saudi expatriates opposed to the Royal Family and ends up in an Al Qaeda training camp where he devises another plan to kill President Silver and attack the United States. Silver tries to stave off the rising tide of impeachment and at the same time combat the increasing risk of a terrorist attack that will destroy the Presidency and fundamentally change the United States unless he can avoid impeachment and intercept the threat. Charged with first-degree murder and first-degree arson, Shelly would never stop claiming her innocence—even to this day. Newton’s Laws of Motion describe the relationship between a body and its response to the forces acting upon it. For the men and women in States of Motion, imbalance is a way of life. Set in Michigan small towns both real and fictional, the stories in Laura Hulthen Thomas’s collection take place against a backdrop of economic turmoil and the domestic cost of the war on terror. As familiar places, privilege, and faith disappear, what remains leaves these broken characters wondering what hope is left for them. These stories follow blue collars and white, cops and immigrants, and mothers and sons as they defend a world that is quickly vanishing. The eight stories in States of Motion follow tough, quixotic characters struggling to reinvent themselves even as they cling to what they’ve lost. A grieving father embraces his town’s suspicions of him as the sole suspect in his daughter’s disappearance. A driving instructor struggles to care for his abusive mother between training lessons with two flirtatious teens. A behavioral researcher studying the fear response must face her own fears when her childhood attacker returns to ask for her forgiveness. Conditioned by their traumatic pasts to be both sympathetic and numb to suffering, the characters in these stories clutch at a chance to find peace on the other side of terror. From the isolated roadways of Michigan’s countryside to the research labs of a major university, the way forward is both one last hope and a deep-seated fear. The profoundly emotional stories in States of Motion will interest any reader of contemporary literary fiction. Collision Reconstruction Methodologies - Volume 7B -The last ten years have seen explosive growth in the technology available to the collision analyst, changing the way reconstruction is practiced in fundamental ways. An automobile, usually called a car (an old word for carriage) or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with “motor” referring to what is now usually called the engine. It has seats for the driver and, almost without exception, for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction, in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects.
