"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." — The Globe and Mail [Lemon-Aid](#) shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His [Lemon-Aid](#) is more potent and provocative than ever. As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, [Lemon-Aid Used Cars and Trucks 2011-2012](#) shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. [Lemon-Aid](#) guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, [Lemon-Aid Used Cars and Trucks](#) is an exposé of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers can't beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches. [American Motorcyclist](#) magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. It's available monthly to AMA members. Become a part of the largest, most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800-AMA-JOIN. [Lemon-Aid](#) guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new [Lemon-Aid Used Cars and Trucks 2012-2013](#) has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever. Offers information about the tank, drainfield, soil, down the drain, maintenance, red alerts, graywater systems, advanced systems, upgrades, and a brief history of waste disposal. [Bottom Line Books](#) publishes the advice of expert authorities in many fields. In this study of channeling, earlier called spirit communication or mediumship, Klimo, who teaches at Rosebridge Graduate School in the San Francisco Bay Area, writes with clarity about "the communication of information to or through a physically embodied human being from a source on some other level or dimension of reality other than the physical as we know it." He profiles recent channels and their sources, goes back to preliterate societies and the advent of monotheism and identifies as channels such figures as Moses, Solomon, Muhammad, Merlin, Nostradamus, Swedenborg and Edgar Cayce. He discusses the sorts of people who are channels, kinds of information channeled, sources of information channeled and varieties of channeling like clairvoyance and automatic writing. According to Klimo, few people tap into their abilities to perform channeling and for those who think they can, he serves as guide. [Popular Mechanics](#) inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. Part of the popular [Today's Technician](#) series, this advanced text provides an in-depth guide to

performance-related topics such as drivability, emissions testing, and engine diagnostics. In addition to a thorough review of on-board diagnostic generation II (OBD II) continuous monitors and non-continuous monitors strategies, the text includes a chapter on emission control and evaporative systems, as well as detailed information on OBD II generic diagnostic trouble codes (DTC) identification and diagnosis and malfunction indicator light strategies. To help readers gain essential knowledge while honing practical job skills, the text includes both a Classroom Manual and a hands-on Shop Manual. The Second Edition also features new and updated material to help readers master the latest technology and industry trends, including expanded coverage of variable valve and camshaft timing designs, a review of variable displacement and variable lift engine designs currently in production, and discussion of advanced use of on-board diagnostic scanners and digital storage oscilloscopes. About our Book *Living the Dream* is the true-life adventure story of our seven-year cruise from Newport, Oregon, to Phuket, Thailand in the 35-foot steel-hulled sailboat, *Tainui*. This book gives a true picture of what it's really like for a retired couple to live their dream of full time cruising to far away places: the highs of beautiful sailing days, snorkeling off pristine coral, anchoring in tropical lagoons, exotic cultural experiences, and the fellowship of the cruising community--but also fear in storms, the exhaustion of sleepless night watches, discouragement of endless boat maintenance, and a rusting through of *Tainui*'s hull. Although we wrote *Living the Dream* for a general audience, serious sailors will find a wealth of helpful cruising information and steel boat owners will profit from our significant learning experiences in our maintenance of *Tainui*'s steel hull.

About us We began our lives far apart--Connie in parts of California that were far from the sea and with no aspirations to cross oceans and Vern in the busy seaport city of Seattle dreaming of sailing away some day. We eventually met at the University of Washington, married, started our family and careers--Vern as a social worker and Connie as a teacher. It was our four years of living with our family in Malaysia while Vern was on the staff of the Peace Corps there that sparked our desire to one day be full time world travelers.
