Worth the Expense Mar 13 2021 Sometimes sacrifices are worth the cost. Even, or perhaps most especially, those made out of love. Eleanor Sawyer is a fixer. People pay her to fix their companies for them, and she's never met a problem she couldn't figure out. Until Daniel Connor hired her. And it's not his company

she's having problems with. No, she has a plan for how to increase Connor Hotels' sales in the American market, and it's good enough that she's impressing even herself. When it comes to figure out Daniel himself, though, and those flashing eyes, smiling lips, and flirty looks... along with the occasional kiss... she's finding herself at a complete loss. She doesn't know if she wants to play along or tell him to remember who she is: just another employee. Because now she's got an even bigger problem. She's starting to fall in love with him. Lemon-Aid New Cars and Trucks 2012 Jan 03 2023 Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering

reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest" head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt

electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago. You can save \$2,000 by cutting freight fees and "administrative" charges. Diesel annual urea fill-up scams cost you \$300, including an \$80 "handling" charge for \$25 worth of urea. Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki. *How to Make Your Car Last Forever* Mar 25 2022 For many people, a well-maintained automobile is a source of pride and peace of mind. But for others, the idea of routine

maintenance is daunting. How to Make Your Car Last Forever will guide you through the minefield of preventative maintenance, repair, extended warranties, and magic elixirs that claim to cure everything from oil consumption to male-pattern baldness! Author, car repair expert, and host of satellite radio show America's Car Show with Tom Torbjornsen, Tom Torbjornsen has seen it all in his 40 years in the automobile industry. Let him show you how to extend the life of your car indefinitely. In *How to Make Your Car Last Forever*, he explains the what, when, and why's of automotive maintenance and repairs in easy-to-understand terms.

Simple how-to projects supplement the learning with step-by-step instructions that will save you time and money. While you may not want your car to last forever, Torbjornsen's advice will help you preserve it indefinitely while maximizing resale value down the road. Preventative maintenance is the key to the automotive fountain of youth. Let Tom Torbjornsen show you the way!

Public Relations Planning Jan 29 2020 Public Relations Planning provides students with an in-depth understanding of the steps involved in planning and executing a successful PR campaign. Taking a strategic approach to

the subject, the author brings years of practical experience to the project, helping students see how it all fits together in reality. The book goes beyond an introductory discussion of the theory of PR planning, incorporating material from cutting-edge research in the field. A discussion of the psychological aspects of communication, material on in-house/employee communication, as well as a chapter dedicated to discussing how social media strategies fit into a PR campaign, give students a real edge when it comes to executing an effective campaign. Plenty of global examples and a companion website featuring PowerPoint

slides, a test bank, and answer key for end-of-chapter questions round out this excellent resource for students of public relations and corporate communication.

SEAL & Veteran Series Aug 06 2020 SEAL's Homecoming When Chance McCallister left her to join the Navy SEALs, Mandy Loomis was devastated. Now, more than ten years later, Chance and his brothers are back in town for their father's funeral, but Mandy is no longer that moon-eyed teenager she once was. She's a fiercely independent woman determined to solve her own problems—and she has plenty. When her gambler father died

two years prior, he left Mandy—along with a successful auto repair business—with a ton of debt owed to a ruthless loan shark. Mandy is barely getting by, and when her mechanic quits, she's in a real bind. It just so happens, Chance is willing to help out. Sure, Chance is bigger, stronger, and sexier than ever, but Mandy isn't interested in anything but his mechanical skills. Or maybe just a bit interested in his kissing skills—which, by the way, are just as good as she remembers. SEAL's Accidental Family All her life, Rachel Winchester has fought against the idea that she was nothing but white trash destined for

Loserville. Now, it seems all that fighting was for nothing. Sure, she's running a successful B&B and, yes, she finally had her way with a man she's crushed on for forever—Harris McCallister, the guy she's flirted with for years; the guy she's thought about and pined for. She's finally feeling good about the future when—bam—she gets pregnant. True or not, in her world, nothing says white trash more than an unmarried pregnant woman. Worse, her “loving” mother is threatening her over the B&B and the property it sits on, all because of a silly legend about a pirate's buried treasure. Harris doesn't know what it is about

Rachel, but he's always been drawn to her. With her brightly dyed hair and sexy-as-hell tattooed body, she's impossible to ignore—and drives him crazy in all the best ways. Finding out she's carrying his baby has him thinking things he's never thought before. Thoughts he brutally pushes away. Returning to active duty as a Marine Raider is what he wants, not settling down and playing house. He'll stick around just long enough to make sure Rachel and the baby-to-be are safe from increasingly disturbing attacks they both believe has to do with an old legend about a pirate's buried treasure. The longer he stays, though, the

tougher returning to duty is becoming. But when the time comes to head back to the Marines, he has to make the toughest decision of his life—duty to his country, or life with the woman he loves. Ranger's Protection Viktoria Jonsdottir is none too pleased with the personal bodyguard her father has insisted on hiring to keep her safe. Safe from what, she has no idea, but she's convinced having this brooding man hovering over her is completely unnecessary. All she wants to do is get to New York where her father is conducting high level meetings for their corporation—meetings she arranged, to prove her value to the company. Sure,

Lee MacCallister is sexy as hell and his eyes would make an ordinary woman swoon. But Viktoria is no ordinary woman. She's not going to fall for Lee, even if he does make her feel things she's never felt before. Like this strange new emotion that just might be...happiness. It's a simple enough assignment for the former Army Ranger—protect some rich, spoiled woman for a few days then pick up the check. Only thing is, Viktoria isn't like any woman he's ever met. She's tough, smart, and has a body that's more than a little distracting. He can keep it professional, even though she's beyond tempting as sin. But when things get dicey and

Victoria's enemies prove to be far more dangerous than Lee anticipated, he realizes Viktoria has become more than an assignment—she's become personal. And that could be the most dangerous thing of all. *Sensory Marketing* Jun 27 2022 Authored by Bertil Hultén, one of the world's leading professors of sensory marketing, this text brilliantly explains the techniques through which a sensory experience can be created to surround a consumer, not only to increase the chance of an immediate sale but perceptions of the product which play into a customer's return and brand loyalty for the future. **2014 Passenger Car**

Yearbook Sep 30 2022 Each year car manufacturers release new production models that are unique and innovative. These cars begin as concepts then go through the process of prototyping. The process of creating a new model can take years, involving extensive testing and refining of aerodynamics, safety, engine components, and vehicle styling. The production model is the result of this lengthy process, and its new technologies reflect the latest engineering standards as well as market trends. The 2014 Passenger Car Yearbook details the key engineering developments in the passenger vehicle industry of the year.

Each new car model is profiled in its own chapter with one or more articles that were previously published and written by the award-winning editors of Automotive Engineering International. The novel engineering aspects of each new model are explored in depth. Interviews with key developers and engineers are included for some of the models, providing inside details about how initial ideas evolved in the cars that consumers drive. Published for enthusiasts who are interested in new car models and their technologies, as well as practicing automotive engineers who are interested in new engineering trends such as hybrid systems,

powertrain designs, automotive design, lightweighting, and materials, and new engineers who want an overview of current trends, the 2014 Passenger Car Yearbook also:

- Provides a single source for information on the key engineering trends of one year.
- Allows the reader to skip to chapters that cover specific car models that interest them, or read about all models from beginning to end.
- Makes for dynamic reading, with its large number of big, full-color images and easy-reading magazine format.

2015 Passenger Car and

2014 Concept Car Yearbook

Aug 30 2022 Every year global automakers introduce new or significantly re-engineered passenger vehicles with increasingly advanced technology intended to exceed consumer expectations and satisfy increasingly stringent government regulations. Some of these technologies are first-of-their-kind and start trends that other automakers soon follow—with the innovations becoming adopted across the board. The supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research, develop, and introduce the latest engineering innovations

that help bring competitive advantage for their automaker partners. Each year, the editors of SAE's Automotive Engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles, and these articles have been collected into this volume. This 2015 Passenger Car and 2014 Concept Car Yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry. In this book, we explore from an OEM and supplier perspective the newest and most technically

interesting production vehicles released for the 2015 model year. In addition, we also have included a technology-focused recap of the concept cars revealed during 2014. Readers will have, in one publication, a complete overview of the key advances that took place over the course of the year from around the world. Each new model is profiled in its own chapter with one or more articles by the award-winning editors and contributors of Automotive Engineering in this exclusive compilation of print and online content. The novel engineering aspects of each new vehicle are explored, with exclusive interviews of key engineers and product

developers providing insights you can only get from you can only get from Automotive Engineering. This book is published for the most technically-minded enthusiasts who are interested in new car technologies, as well as practicing automotive engineers who are interested in new engineering trends. Engineering trends explored focus on what engineers are doing to meet the sometimes conflicting consumer and governmental demands for improved vehicle fuel efficiency, performance, safety and comfort. In short, this book: • Provides a single source for information on the key engineering trends of the

year from both automaker and supplier perspectives. • Allows the reader to skip to chapters that cover specific car models that interest them, or read about all models from beginning to end. • Makes for dynamic book reading, with its large number of big, full-color images and easy-reading magazine format.

Falling in Love Dec 22 2021

Falling in love at Halloween can be scary.... Lexi Carmichael recently moved to Shepherdstown, West Virginia, to be closer to her boyfriend, Tyson Monroe. The town is known for its ghosts, but his attitude is scarier than anything rumored to be haunting this small town, and she's ready to call it quits for good. Max Renfro has just returned to this hometown, taking a new job at the historical society. He's not looking for love, but when he meets Lexi, he can't get her out of his mind. Maybe working on the town's masquerade ball

together will bring them closer together and help her get over Tyson. Does Max have a ghost of a chance at showing Lexi he's the one she should spend eternity with? *Falling in Love* is a heartwarming, Christian romance perfect for cozy reading on an autumn night. The books in this series are each about a different couple, and while reading them in order is helpful, you don't need to have read them all to fall in love with this one.
