BONUS: This edition contains an excerpt from Richard Montanari's *The Echo Man*. The Opium Wars of 1840-1860 were dark chapters of history. Britain went to war to force China to import thousands of tons of opium, to cripple and impoverish that nation. The Opium Wars never really ended. The U.S., like China, was too great for the London money lords to occupy by force. One way America is being brought to heel is by the drug trade. Crime and other social problems in the U.S. and Mexico are massively influenced by drugs and drug dealing. Illicit drugs may now account for as much as \$1 trillion annually in financing for criminal activity and corruption. TOPICS: The East India Company; British role in the drug trade, from the wars on China, the HongShanghai Bank, Bronfmans, Prohibition, and Organized Crime in the U.S. Financial derivatives; Wall St., money laundering; medical marijuana. decriminalization; Soros and IMF links to drugs. Afghan opium; Colombian cartel; terrorism. Russia targeted by Dope, Inc. cocaine, heroin, amphetamines. More than 30 years have passed since the first edition of *Dope, Inc.* was published, in 1978. Commissioned by Lyndon Larouche, it threatened the world's power structure. It became America's underground best-seller. *Dope, Inc.* drew the line between American patriots and the British apparatus destroying the USA. The London and Wall Street bankers ran for cover. A mammoth campaign of slander and government dirty tricks tried to bury the authors, because *Dope, Inc.* revealed the most deeply held secrets of the big names behind the world's illegal narcotics trade. In Venezuela, the leading drug-running families who were exposed in the Spanish-language version, *Narcotrafico, S.A.*, used their political influence to have it banned and confiscated. Financiers scrambled to control the damage of this unprecedented exposure. The Hongkong and Shanghai Banking Corporation was denied a license in New York State because it failed to refute the charges in *Dope, Inc.* when the state demanded accounting of its hidden profits, silent subsidiaries, and paraphernalia of money-laundering. Now in 2010, *Dope, Inc.* is completely updated: Soros - Afghanistan - the government and bankers behind the cartels. Today the British-controlled dope trade finances the world's leading terrorist entities - Afghanistan's Taliban, the Chechen rebels, the FARC guerrillas of Colombia. Dope money supports the bankrupt world financial system. A trillion dollars goes through the Cayman Islands, the Isle of Man, Dubai. Speculation makes it trillions more. It sucks the blood of the real economy; and the dope destroys mankind's powers of reason. Since 2007 Douglas Ljungkvist has been photographing vintage cars, mostly in Brooklyn's urban and industrial landscapes. The work has matured into a cohesive typology ready for publication. The project is a study of form, design, and beauty documenting cars mostly between the 1960's and late 1970's. The cars are photographed similar to formal portraits, in profile and isolated from people and other cars. The visual relationship between the cars and their environment is more important than the brand, model, production year, or engine size. The process is similar to a nature photographer looking for exotic animals to photograph in the wild. It's a bit like looking for a needle in a haystack. Whether on his scooter or on foot Ljungkvist has perfected a one second glance down a block looking for unusual shapes or colors to identify something to add to the collection. Ljungkvist even followed a few of them on his scooter until they parked and the owner walked away. American cars of this era are still popular for their (masculine) aesthetics and raw power. They were built with individual expression in mind, to be seen and heard, at a time when everything was big and bold. As mechanical cars they are fairly easy to maintain and tinker with for hobbyists. The European cars in the collection reflect longevity and craftsmanship, attributes that are rare in today's modern and generically designed cars. The work is also a celebration of 1970's vernacular color photography and the freedom, expression, and adventure that the automobile represented in American popular culture at a time when people didn't worry about the price of gasoline. The project catalogue includes more than 750 cars.

This is the thrilling, warts-engine-oil-and-all autobiography of the only racing driver Ayrton Senna ever feared - the 200mph flawed genius of Tommy Byrne.It tells the surreal tale of a poverty-stricken Dundalk kid's rise to become the only racing driver the great Ayrton Senna ever feared - and how it all went wrong from there. For a brief moment Tommy Byrne was arguably the world's greatest driver, the motor racing equivalent of George Best and Muhammad Ali rolled into one - A racer, a thief, a raconteur.This is the story of his improbable escape, his rapid rise and his spectacular and bizarre fall from grace. Peppared with dark humour and a cast of ridiculous characters, it is the antithesis of a fairytale - and it's all true. Hold on tight, the tale of Tommy Byrne is quite a ride - from fending for himself as the runt of a big Catholic litter in the '60s, running the gauntlet of the sectarian violence in the '70s, troubling Ayrton Senna and making it to F1 in the '80s, resorting to drugs in the aftermath and driving for a deluded billionaire madman and then gun-toting Mexicans in the '90s. It's raw, passionate, and - with Byrne's ability to tell it like it is - not for the faint-hearted.
