I'm a product of the American divorce rate.

Nothing tragic. Nothing obscure or awful. Just good old-fashioned family failure. Then in my early adulthood, I found myself repeating the very same home I grew up in and assimilating into American statistics myself. In response to the wreckage, I began driving. When I thought I was at the end of it all, I discovered that I was really at the beginning of a grand adventure. I was off to find my father. And finding my father would lead to finding security. Security is perhaps one of our greatest needs as humans. Romantics say love is our greatest need. Philosophers say knowledge is our greatest needs. Mystics say transcendence is our greatest need. But what if security is in-fact our greatest need? Who would we be as a people, as a church, and as a nation if we felt a sense of security in our lives? Not superficial security where life is predictable, but a sacred security. One that's firm in our identity. Affirmation by a father is something we all need, whether we want to admit it or not. Not having my father around in my most critical adolescent years created an insecurity in me that I eventually transferred over to my faith. I even transferred it over leaders and other authorities in my life. A breeding ground for insecurity. It wasn't until I found the secrets of beauty and adversity, and found the Father in the wild, that I became

healthy and whole. This journey is an introspective look at faith and freedom, and finding a father, with crisis as a catalyst. It's a journey across the wilderness of America, through prairies and mountains, across National Parks and along interstates, and ultimately the highways of the heart and mind. This is an automotive maintenance and repair manual for the VW Beetle vehicles. The book is suitable for the DIY mechanic. As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and

anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up." Every Haynes manual is based on a complete teardown and rebuild, contains hundreds of "hands-on" photos tied to step-by-step instructions, and is thorough enough to help anyone from a do-it-your-selfer to a professional. A minute-by-minute account of the morning that brought America into World War II, by the New York Times-bestselling authors of *At Dawn We Slept*. When dawn broke over Hawaii on December 7, 1941, no one suspected that America was only minutes from war. By nightfall, the naval base at Pearl Harbor was a smoldering ruin, and over 2,000 Americans lay dead. December 7, 1941 gives a detailed and immersive real-time account of that fateful morning. In or out of uniform, every witness responded differently when the first Japanese bombs began to fall. A chaplain fled his post and spent a week in hiding, while mess hall workers seized a machine gun and began returning fire. Some officers were taken

unawares, while others responded valiantly, rallying their men to fight back and in some cases sacrificing their lives. Built around eyewitness accounts, this book provides an unprecedented glimpse of how it felt to be at Pearl Harbor on the day that would live in infamy. "The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - *The Globe and Mail* *Lemon-Aid* shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His *Lemon-Aid* is more potent and provocative than ever. *Popular Mechanics* inspires, instructs and influences readers to help them master the modern world.
