The Supporting Role of Logistics during the Early Stage of Retail Internationalisation Nov 24 2019 Retail internationalisation refers to the establishment of retailers into foreign sales markets and is an important success factor for many retail chains. Logistics has been acknowledged as an important prerequisite and key component of retail internationalisation, enabling physical distribution to new foreign markets as well as ensuring customer satisfaction in terms of on-time delivery and product availability. Despite the recognition of logistics, logistics managers struggle to adapt their logistics organisation and operations in order to efficiently and effectively support retail internationalisation due to the complexity of operating in multiple markets. Previous research seldom mentions how logistics supports retail internationalisation, especially when retail chains are at the

beginning of their retail-internationalisation journey. By exploring the supporting role of logistics during the early stage of retail internationalisation, retailers can better understand how logistics organisation and operations can be organised in order to successfully expand into foreign sales markets. Therefore, the purpose of this licentiate thesis is to: Explore the supporting role of logistics during the early stage of retail internationalisation. This licentiate thesis is based on an abductive, multiple-case-study approach that combines empirical data with literature in an iterative process in order to explore the supporting role of logistics during the early stage of retail internationalisation. The selected case companies were three large-sized Swedish retail chains that have recently established themselves into nearby foreign sales markets. The findings of this licentiate thesis suggest that logistics plays both a reactive and a proactive supporting role during the early stage of retail internationalisation. The reactive supporting role refers to logistics that adapts to predetermined conditions set by the retail company's top management team. As a reactive supporter, the logistics organisation is typically involved at an operational level and scales up its logistics operations in order to supply multiple markets. Beyond its reactive role, logistics can also play a proactive supporting role. This refers to its involvement at a strategic level within the retail company

where it can influence the conditions of retail internationalisation. When logistics is involved more proactively, its operations can become better aligned with the other company operations involved in retail internationalisation. Furthermore, proactive logistics support enables more efficient and effective logistics that can better cope with increased complexity as well as more effectively keeping track of logistics costs. In addition to these findings, the importance of top management has been identified as a key aspect of proactive logistics support. More specifically, logistics competence within the top management team enables logistics to be prioritised at a strategic level and to be better integrated during retail internationalisation, including during individual establishments into new markets. The findings also suggest that the importance of logistics increases over time during retail internationalisation. The more markets the retailer enters, the more important efficient logistics becomes in order to deal with both complexity and logistics costs. By involving proactive logistics from the start of retail internationalisation, retail chains can more efficiently and effectively establish into and operate within foreign sales markets, which in turn supports a sustainable retail internationalisation. One of the main academic contributions of this licentiate thesis has been to study logistics in the specific

context of retail internationalisation, which has previously not been researched in any great detail. In addition, logistics has often been studied as a static aspect, but in this thesis it is studied from a dynamic perspective in order to understand how its supporting role changes over time during the early stage of retail internationalisation. Another important contribution is that the role of logistics has been studied from both a strategic and an operational level, as previous research has mostly focused on the strategic level of logistics related to retail internationalisation. In terms of practical contributions, this licentiate thesis clarifies the logistics characteristics and supply-chain capabilities that support the early stage of retail internationalisation. This licentiate thesis can also help practitioners to better prepare their logistics organisation and logistics operations for a future retail internationalisation, as well as helping them to avoid making logistical mistakes during the early stage of retail internationalisation.

Law and Literature Dec 26 2019 First published in 1996. The first anthology of its kind in this dynamic new field of study, this volume offers students the best of both worlds-theory and literature. Organized around specific themes to facilitate use of the text in a variety of courses, the material is highly accessible to undergraduates and is suitable as well for graduate students and law students. The anthology includes important articles by key figures in the

law and literature debate, and presents seven thematically arranged sections that: Survey the various theoretical perspectives that inform the relationship of law and literature Examine the interplay of ethics, law, and justice * Highlight the great scope and variety of the law's contributions to the creation of a world view * Illustrate various legal approaches to punishment * Detail and analyze the law's inherent capacity for the oppression of individuals and groups * Demonstrate that law is grounded in language and storytelling * Show that despite its solemnity, the law has a comic side Each section includes excerpts from poetry, drama, fiction, and nonfiction. The excerpts include writings addressing the law's impact on the "outsider" (women, Native Americans, Hispanics, African Americans, and homosexuals), as well as writings by lawyers, judges, and law professors, giving the reader an "insider's" view of the legal system. The selections range from Plato to John Barth and Wallace Stevens. At this time of increased interest in the quality of legal writing, this course material illustrates the importance of language, word choice, metaphor, and narrative. It demonstrates the practical application of literary effects, techniques, and devices, and provides valuable insights into law as a vital component of the social fabric. SPECIAL FEATURES All law schools that do not already have one in place are required to institute a course in Law and

Literature. This new anthology is the first of its kind, and has been specifically designed to meet the requirements of a Law and Literature course * Selections from judges, lawyers, and professors of law give students an insider's view of the legal system * Chronological coverage-from Plato to such 20th-century writers as John Barth and Wallace Stevens-offers students a broad range of selections that examine the relationship between law, justice, ethics, and literature * Multicultural writings address the law's capacity for the oppression of individuals and groups, including women, Native Americans, African Americans, Hispanics, and homosexuals * Law and punishment-several selections examine this area from various points of view. Suitable for courses in: Law and literature courses in law schools and undergraduate divisions as well as interdisciplinary courses in English literature.

Lord of the Flies Feb 08 2021

This dystopian classic is 'exciting, relevant and thought-provoking' (Stephen King). When a group of schoolboys are stranded on a desert island, what could go wrong? ONE OF THE BBC'S '100 NOVELS THAT SHAPED OUR WORLD' 'One of my favorite books - I read it every couple of years.' Suzanne Collins, author of *The Hunger Games* What are we? Humans? Or animals? Or savages? What's grown-ups going to think? Going off-hunting pigs-letting fires out-and now! A plane crashes on a desert island. The only

survivors are a group of schoolboys. By day, they explore the dazzling beaches, gorging fruit, seeking shelter, and ripping off their uniforms to swim in the lagoon. At night, in the darkness of the jungle, they are haunted by nightmares of a primitive beast. Orphaned by society, they must forge their own; but it isn't long before their innocent games devolve into a murderous hunt ... 'Thrills me with all the power a fiction can have ... Exemplary.' Ian McEwan 'An existential fable backlit with death's incandescent glare.' Ben Okri 'Violently real ... An apocalyptic novelist [who writes with] humanist rage and defiance.' Marlon James 'Beautiful and desperate, something quite out of the ordinary.' Stevie Smith 'Beautifully written, tragic and provocative.' E. M. Forster 'A fragment of nightmare.' *New Statesman* 'A post-apocalyptic, dystopian survivor-fantasy ... [A novel] for all time ... A cult classic.' *Guardian* 'Stands out mightily in my memory ... Such a strong statement about the human heart.' Patricia Cornwell 'Terrifying and haunting.' Kingsley Amis What readers are saying: 'Every real human being should read this ... This is what we are.' 'It's brilliant, it's captivating, it's thought provoking and brutal and for some, its truly terrifying.' 'It can be read and re-read many times, and every time something new will appear.' 'There is a reason why this is studied at school ... Excellent read.' 'This is one of the few books I've read that I keep on my Kindle to read

again.' 'I revisit this every few years and it's always fresh and impressive ... One of the best books I've ever read.'

 The study of Canadian literature—CanLit—has

undergone dramatic changes since it became an area of specialization in the 1960s and '70s. As new global forces in the 1990s undermined its nation-based critical assumptions, its theoretical focus and research methods lost their immediacy. The contributors to *Trans.Can.Lit* address cultural policy, citizenship, white civility, and the celebrated status of diasporic writers, unabashedly recognizing the imperative to transfigure the disciplinary and institutional frameworks within which Canadian literature is produced, disseminated, studied, taught, and imagined.

Revolutions in Romantic Literature Nov 05 2020
 This concise Broadview anthology of primary source materials is unique in its focus on Romantic literature and the ways in which the period itself was characterized by wide-ranging, self-conscious debates about the meaning of literature. It includes materials that are not available in other Romantic literature anthologies. The anthology is organized into thirteen sections that highlight the intensity and sophistication with which a variety of related literary issues were debated in the Romantic period. These debates posed fundamental questions about the very nature of literature as a cultural phenomenon, the extent and

role of the reading public, literature's relation to the sciences and the aesthetic, the influence of contemporary commercial pressures, and the impact of perceived excesses in consumer fashions. The anthology foregrounds the ways that these literary debates converged with broader social and political controversies such as the French Revolution, the struggle for women's rights, colonialism, and the anti-slave trade campaign. This anthology includes an impressive range of writings from the period (including literary criticism and philosophical, political, scientific, and travel writing) which embodies the collection's broad approach to Romantic literature. Both lesser-known and more canonical writings are included, and the selections are organized by topic in such a way as to dramatize the debates and exchanges which characterize the Romantic period.

Literature Education in the Asia-Pacific Nov 29 2022
 The continual rise of English as a global lingua franca has meant that English literature, both as a discipline and as a tool in ESL and EFL classrooms, is being used in varied ways outside the inner circle of English. This edited collection provides an overview of English literature education in the Asia-Pacific in global times, bringing to international attention a rich understanding of the trends, issues and challenges specific to nations within the Asia-Pacific region. Comprising contributions from Australia, China, Hong Kong, India, Indonesia, Malaysia, Philippines, Singapore and Vietnam, the collection addresses the diversity of learners in different national, cultural and teaching contexts. In doing so, it provides insights into historical and current trends in literature education, foregrounds specific issues and challenges in policymaking and implementation, presents practical matters concerning text selection, use of literature in the language classroom, innovative practices in literature education, and raises pressing and important questions about the nature,

purpose and importance of literature education in global times.
