A intriguing tale of métis buffalo hunts, a long-lost daughter, and a macabre secret. Big John McTavish has been hunting and trading among the métis buffalo hunters of the Red River Valley for more than thirty years. He's a trusted member of the half-breed nation, and a leader of the mixed-bloods' twice-yearly buffalo hunts. However, when he returns to the settlements in the fall of 1832 with a mountain man he's rescued from a Chippewa war party, he has no way of knowing the chain of events the outsider is about to unleash on the unsuspecting hunters, or the kind of destruction that will follow them onto the buffalo ranges that border the lonely Missouri River. Before the hunters return to their homes along the river, Big John will learn the macabre secret that has brought the trapper from the far reaches of the Rocky Mountains. He will discover a daughter he thought he'd lost forever, and relive the horror that took her away. And the métis will come to realize that if they are to survive as an independent nation, they must forever free themselves of the influence not only of the powerful Hudson Bay Company, but also of the man they have viewed as their friend for more than a quarter of a century. Beneath a Hunter's Moon is a novel of honor and treason, love and betrayal, but mostly it is a story about a proud and wonderful people--the métis of the Red River Valley. They cover a vast range of genres, from horror to adventure to sci-fi, but they all make an entertaining read for young readers. Ultimately, this collection of stories aims at asking young people, their teachers, and their parents the following question: "Who said you can't write?" "Powerful...Caputo's wisdom runs deep. Few writers have better captured the emotional lives of men." —The New York Times Book Review From Philip Caputo—the author of *A Rumor of War*, *The Longest Road*, and *Some Rise By Sin*—comes a captivating mosaic of stories set in a small town where no act is private and the past is never really past. *Hunter's Moon* is set in Michigan's wild, starkly beautiful Upper Peninsula, where a cast of recurring characters move into and out of each other's lives, building friendships, facing loss, confronting violence, trying to bury the past or seeking to unearth it. Once-a-year lovers, old high-school buddies on a hunting trip, a college professor and his wayward son, a middle-aged man and his grief-stricken father, come together, break apart, and, if they're fortunate, find a way forward. *Hunter's Moon* offers an engaging, insightful look at everyday lives but also a fresh perspective on the way men navigate in today's world. Left alone in the wilderness after an Indian raid to fend for herself and her infant daughter, young widow Rebecca Wallace is forced to accept the aid of Mack McGee, a handsome army scout, to get her and her child to safety. Original. "Welcome to the moon, Chief Calloway." It was the first time anyone had addressed him with that title, and Cal decided right away he liked it. In the LAPD he had been a tiny fish in a monstrous pond. It would have taken him ten years to make sergeant, another ten for lieutenant—and that was only if he lived long enough. L.A. policing was getting more dangerous by the day. Burnout was common, and when his best friend in Rampart Division hung himself over an internal affairs investigation, Cal knew it was time to move on. Now, as chief of North Armstrong's fledgling police department, he would be in charge, he would be The Man. And with a starting salary of \$185,000—it was nothing less than a dream job. Sure; the stories of relentless larceny, exotic pharmacists, and violent miners were legendary, but compared to Los Angeles, how hard could it be? As the escort guided him away from the tarmac and toward the domed city's air lock, Cal had a question. "I was wondering; how many other people applied for this job?" The escort tapped in a key code. As the door slid open, the two of them stepped into the air lock. With assistance from the small enclosure's overhead lighting, Cal was able to get a good look at her expression through the helmet's faceplate. Her facial muscles were rigid, serious. "A couple hundred? A thousand? I suppose it must've been pretty competitive." The door slid closed and locked, then she turned to him and spoke. "You were the only applicant." A fearsome beast lurks deep in the Forest of Tay. Under cover of darkness it emerges to feed on the local farmer's sheep—and sometimes the farmers themselves. Frazer McCloud believes it's a wolf but some whisper that it's the Cù Sìth, a creature summoned by the mysterious 'Walkers in the Woods.' Callum is Fraser's young apprentice. He's understandably apprehensive when Fraser insists that he must help hunt down and kill the beast. In the local village, Callum meets Mhairi, the innkeeper's daughter, who knows more about the Walkers than she really should. As time passes, the killings become ever more audacious - and Callum realises he has every reason to be afraid... Two teenage cousins, one Irish, the other from the United States, set out to find a magic doorway to the Faraway Country, where humans must bow to the little people. A story of foxes, from O-ha and her six unborn cubs in Trinity Wood to Camio, an American Red Fox far away in his zoo cage. The animals in Trinity Wood feel safe from predators, but their world is changing, humans are coming closer with their bulldozers, houses, their guns and their dogs. *Hunter Moon* Apache tracker Clay Cosen's past comes back to haunt him when his ex-love, Isabelle Nosie, asks him to help clear her name. Clay will need all his skill to ensure her safety - and win her heart... Trusting a Stranger Wanted for murder, Graham Calloway has been in hiding for years, until he rescues a beautiful stranger, Keira Niles, from her wrecked car. For the first time he wants a future...but will the killer let him have one? Susan Michaels is a reporter on a mission to resurrect her professional reputation. And she only has to brave her cat allergy at a local animal shelter to follow the lead that could get her off the tabloid beat forever. Ravyn is entirely unique - a Were-Hunter who became a Dark-Hunter as well. Suddenly, Susan is pulled into Ravyn's mysterious world - one full of danger and magic. And, despite the way he makes her sneeze, despite the danger that swirls around him, she just can't resist him... What reviewers are saying: "This is an engaging story with complex but believable characters and an interesting presentation of story- a journal, a retelling of the past, and an exploration of the present. Anya moves seamlessly among those sources to develop themes of resilience, courage and integrity within three unique cultures. A great read....one of the few books that demands both a prequel and a sequel! Thank you, Anya, for sharing this with us all!" -StoryCollector "If you're a fan of *Divergent*, *The Maze Runner*, and *The Hunger Games*, this is the perfect book for you. I love a good dystopian thriller and *Moon Hunters* did not disappoint. While borrowing themes from the classics, the plot is unique. The characters are very well developed and you can't help but rally behind them. The story pulled me in within the first few pages and I had a hard time putting it down. I highly recommend it." -Eric S. "I highly recommend "The Moon Hunters" by Anya Pavelle. It's a great story of standing up for what you believe in. It also features a strong female lead character. The book is a thrilling example of excellent post-apocalyptic sci-fi at its best. The author crafts a tale that is both an epic worldbuilder and riveting adventure. Do yourself a favor and grab a copy. You'll be glad you did." -DTM For the Hunters, the Hunt was a religion. The Sacred Prey, sentient beings collected from all over the galaxy, were literally given a fighting chance--they were allowed to choose weapons from an armory with every imaginable weapon and given time to train. Then they were taken to the place of the Hunt, where death awaited them. Those who survived until the eclipse of the red moon, however, were honored by the Hunters and rewarded with all the wealth they could desire. The trick, of course, was surviving. She frequents the beach when time allows and on the nights when the Moon is in full phase, she can always be found on its shores. When Mia runs into a twosome of friendly women at a fair, they approach her using the guise of comparative, symbolic necklaces. Under false pretense, the girls invite her to their Samhain party, inevitably leading her into the web of a Grey Coven, led by Hunter, a powerful, grey male Witch. It is Mia's veiled trait that he intends to incorporate into his coven by any means necessary. In the interim, he leads her through a delphic maze of self-discovery, to show her who she is and why she belongs with them, however, the tactics that he and his Coven members employ are harsh. She fights in steadfast defiance and manages to escape, only to be recaptured and bound with Magick, to the confines of the Coven property. When she discovers her unique trait, she hones her skills and uses the Coven's strengths and weaknesses against them to try to cease the actions of their distorted hive, and to free herself from its labyrinth. Will Mia learn to fly against the grain and survive the battle of evermore, without resorting to dark Magick or will she surrender to its dark, seductive deception?
