This book is for students who have learned English as a second (or third, or fourth) language and are studying at an institution where English is the medium of instruction. Each of the book's 10 chapters focuses on a reproduced academic article on an aspect of English for academic purposes. Therefore, students can learn about language skills from the articles themselves, as well as develop those skills in the activities and tasks which follow. A companion website features a collection of articles from a variety of different sources related to the topics in each of the book's 10 articles. This concise, no-nonsense guide shows students how to adopt a critical approach in order to unlock their academic potential. It explains: - what 'getting critical' means - why students need to adopt a critical approach - how students can integrate critical analysis into their research, reading and writing Each succinct chapter is visually engaging and informative, and includes plenty of snippets of real students' work to show readers what good critical writing looks like. This 3rd edition has been updated throughout, and now contains new chapters on getting critical with numbers and critical appraisal, fresh examples from a wider range of assignments and more STEM examples. Getting Critical is an invaluable resource for all students who are required to write essays, reports and other pieces of extended writing as part of their course. It is also an ideal text to be used in conjunction with study skills programmes and critical thinking modules at Higher Education and Further Education level. YOU WANT TO DO WELL AT UNI - NOW THERE'S A BOOK TO SUPPORT YOU. 'Everything you need to know to succeed in Higher Education'Gaye Conroy, University of Sussex 'Great advice, strategies and models. I'd recommend it to our students' Sarah Speight, University of Nottingham THE STUDY BOOK is a practical guide to developing the academic skills you need to succeed at university, college or any higher level study. Learn how to think, research, debate, write about,

and apply information - and do all the things that will directly impact on your academic success from the moment you start. It guides you through activities and processes to help you examine your learning abilities and experiences so far. It will help you to understand your particular preferences and styles, your natural advantages as well as any specific weaknesses, and then guide you to build an effective personal approach to studying. You will learn what you need to do to do well in your course, like completing high quality assignments, writing essays, and showing off your full understanding in exams. Along the way you'll find emergency tips to inject into realistic situations like when struggling with the dynamics in a group-working situation, lost in planning a complex assignment, or getting stressed in the days before an exam. It contains specific reminders about academic conventions, definitions of terminology, useful checklists to support tasks, and simplified processes to keep you on track. There are insights from other students, example scenarios, and short case-studies, all designed to root the advice in real academic context, and keep you focused on what you need to do to keep improving. 'A book that will help all students' Jeremy Dudman-Jones THIS IS THE ESSENTIAL GUIDE TO TAKING ON THE CHALLENGE OF STUDYING - AND COMING OUT ON TOP. A paired skills series uses a sustained content approach to teach skills necessary for taking academic courses in English. Academic Encounters Level 3 Teacher's Manual Reading and Writing Life in Society will contain general teaching guidelines for the course, tasks by task teaching suggestions, answers for all tasks, and chapter quizzes and quiz answers. Building Academic Reading Skills teaches the academic reading skills that are most useful for college and university students. Building Academic Reading Skills offers pre-reading, during reading, and post-reading development activities in all units and for each reading within a unit. The 2nd edition features two completely revised units (2 and 5) and other updates. Because today's readers need to master a large volume of texts and vocabulary presented in different genres and disciplines, Building Academic Reading Skills is organized by a high-interest topic and features multiple readings from different academic disciplines. Each unit contains one textbook reading and one from another genre because students are increasingly reading newspaper, magazine, journal, and online articles in addition to their textbooks. The readings, while adapted to be accessible to intermediate to high-intermediate students, are not easy. However, through the systematic application of the reading skills, students will be able to understand them and apply the information they learn. Students will gain the satisfaction of having engaged and mastered challenging texts. The 2nd edition of Book 1 includes the disciplines of cross-cultural communication, environmental science, chemistry, sociology, biology, art, geology, political science, mathematics, business, history, and creative writing. This is the ultimate guide to study skills, written by million copy bestselling author Stella Cottrell. Her tried and tested approach, based on over 20 years' experience of working with students, has helped over a million students to achieve their potential. When it comes to studying, there is no one-size-fits-all approach. This engaging and accessible guide shows students how to tailor their learning to their individual needs in order to boost their grades, build their confidence and increase their employability. Fully revised for the fifth edition, it contains everything students need to succeed. This is an invaluable resource for undergraduate students of all disciplines, and is also ideal for postgraduates, mature students and international students. It prepares students for what to expect before, during and after their studies at university. New to this Edition: - Additional material on writing skills, including proofreading, editing and writing for different assignments - New chapters on managing stress and student wellbeing at university, learning in diverse and international contexts and writing essays - More emphasis on reflective learning - Extended guidance on how to balance study with work - More use of visuals to summarise key learning points This is a complete course in study skills for students in further and higher education institutions. Skills taught include: improving reading efficiency; note-taking; preparing for seminars; research techniques; essay organization and presentation; exam preparation. One unit also deals with the social aspects of studying in Britain. The emphasis is on student activity and realistic practical work. To make the course as flexible as possible, suggestions are given in the Tutor's Book for 'full-time' and 'minimum time' allocations within each unit. Full-time allocations give about 90 classroom hours; the shorter programme can be completed in about 50 hours. The Tutor's Book also provides suggestions for further reading and answers to the exercises. Answers are also given in the Student's Book, so making it possible for most of the course to be used for individual study. The cassette recording contains the lecture material for Unit 3 Taking Notes. Give your child a smart start with the revised and updated What Your First Grader Needs to Know What will your child be expected to learn in the first grade? How can you help him or her at home? How can teachers foster active, successful learning in the classroom? This book answers these all-important questions and more, offering the specific shared knowledge that hundreds of parents and teachers across the nation have agreed upon for American first graders. Featuring a new Introduction, filled with opportunities for reading aloud and fostering discussion, this first-grade volume of the acclaimed Core Knowledge Series presents the sort of knowledge and skills that should be at the core of a challenging first-grade education. Inside you'll discover • Favorite poems—old and new, such as “The Owl and the Pussycat,” “Wynken, Blynken, and Nod,” and “Thirty Days Hath September” • Beloved stories—from many times and lands, including a selection of Aesop’s fables, “Hansel and Gretel,” “All Stories Are Anansi’s,” “The Tale of Peter Rabbit,” and more • Familiar sayings and phrases—such as “Do unto others as you would have them do unto you” and “Practice makes perfect” • World and American history and geography—take a trip down the Nile with King Tut and learn about the early days of our country, including the story of Jamestown, the Pilgrims, and the American Revolution • Visual arts—fun activities plus reproductions of masterworks by Leonardo da Vinci, Vincent van Gogh, Paul Cézanne, Georgia O’Keeffe, and others • Music—engaging introductions to great composers and music, including classical music, opera, and jazz, as well as a selection of favorite children’s songs • Math—a variety of activities to help your child learn to count, add and subtract, solve problems, recognize geometrical shapes and patterns, and learn about telling time • Science—interesting discussions of living things and their habitats, the human body, the states of matter, electricity, our solar system, and what’s inside the earth, plus stories of famous scientists such as Thomas Edison and Louis Pasteur This new guide builds on the hugely successful materials the authors have developed over the last 15 years. Along with highly practical guidance on traditional learning skills, The Guide to Learning and Study Skills provides guidance for students on learning in a blended environment; the increased use of personal and professional development planning, continuing professional development and work-based learning. This is the definitive guide to successful study as an international postgraduate student. Chapters cover all

the core academic skills, including time management, reading, referencing, critical thinking, doing research, and writing and speaking for assessment. The book features a wealth of examples, activities and checklists to help students hone their skills. The 2nd edition features: - New content on writing critical reviews and case study reports, managing digital sources and using electronic databases - Additional activities on referencing and critical thinking - Practical pointers to help students hit the ground running and quickly get to grips with the expectations and conventions of postgraduate study This book features five theme-based units on cross-disciplinary academic English skills, focusing on the needs of first-year undergraduate students. Each unit covers academic writing, reading and speaking skills. The units progressively take students through the steps needed to complete three common academic assignments: the essay, report and tutorial discussion. These steps include searching for sources, note-taking, establishing personal stance, synthesizing information from multiple sources and structuring academic texts. Each unit also includes opportunities for students to analyze texts, apply their critical thinking skills, try out what they have learnt in productive tasks, as well as reflect upon their progress. It is aimed at first-time university students. Many of the readings in the book are related to China and the broader Asian context. As such, this textbook might appeal to first-year university students in Hong Kong, Mainland China and Taiwan. How to Succeed at University is a uniquely comprehensive study skills and personal development guide, incorporating coverage of personal skills, academic skills and job search skills within the framework of personal development planning. All the key skills are covered, with a strong focus on the importance of the continuing personal development process and the ultimate goal of employability. In terms of personal skills, the book offers advice on handling stress, time management and developing interpersonal skills. The academic skills section concentrates on the skills crucial for learning effectively, carrying out research, writing up your work and tackling exams. The job search skills covered include discussion of how to identify the best job according to skill set and how to stand out in the applications and selection process. This book will be an essential companion for all undergraduate students, whatever their subject of study, and for those preparing for study at University. A comprehensive study skills book that covers all the skills necessary for a student to succeed in college. Addressed to meet the needs of today's diverse college population—students of all learning styles, ages, and backgrounds—this text focuses on a broad range of study strategies. The book is based on the premise that all students can be successful if they learn to apply appropriate strategies. Acknowledging that specific strategies for developing such skills will differ according to each student's individual learning style and training, it offers presentations and activities in many different modalities. 'Academic Skills through Cases in American Studies' is aimed at ESL college students at the Intermediate-high through Advanced levels of language proficiency. It is designed around eight country-specific (U.S.) cases that develop academic skills tested on international exams. The book covers major topics in the areas of academic reading, speaking and writing. Thus, the targeted learning outcome is two-fold: 1) to explore topical issues in American studies and 2) to master key academic skills. The content of the articles in each unit is selected according to the language needs of students majoring in economics, sociology, political science, and the like. The book can be used both as a supplement to a course in American Studies or as a separate curriculum within an academic skills course. This engaging guide will equip students who are non-native speakers of English with the tools and confidence to respond effectively and appropriately to written assignments at university. It supports students in the development of essential writing skills, such as structuring paragraphs and building an argument, and provides practical guidance on adhering to the conventions of academic writing. It guides students systematically through a series of text analyses which bring out key linguistic and rhetorical features, making complex textual issues manageable and understandable for learners of all abilities. This is an ideal self-study aid for non-native English speakers, both on pre-sessional language courses and on degree programmes, who need to get to grips with the conventions of academic writing.
