Narrative of the Life of Frederick Douglass, an American Slave Dec 26 2022 Narrative of the Life of Frederick Douglass is an 1845 memoir and treatise on abolition written by famous orator and former slave Frederick Douglass during his time in Lynn, Massachusetts. It is generally held to be the most famous of a number of narratives written by former slaves during the same period. In factual detail, the text describes the events of his life and is considered to be one of the most influential pieces of literature to fuel the abolitionist movement of the early 19th century in the United States. Narrative of the Life of Frederick Douglass encompasses eleven chapters that recount Douglass's life as a slave and his ambition to become a free man.

The Life of Frederick Douglass Apr 06 2021 Frederick Douglass's dramatic autobiographical account of his early life as a slave in America. Born into a life of bondage, Frederick Douglass secretly taught himself to read and write. It was a crime punishable by death, but it resulted in one of the most eloquent indictments of slavery ever recorded. His gripping narrative takes us into the fields, cabins, and manors of pre-Civil War plantations in the South and reveals the daily terrors he

suffered. Written more than a century and a half ago by a Black man who went on to become a famous orator, U.S. minister to Haiti, and leader of his people, this timeless classic still speaks directly to our age. It is a record of savagery and inhumanity that goes far to explain why America still suffers from the great injustices of the past. With an Introduction by Peter J. Gomes and an Afterword by Gregory Stephens

A Political Companion to Frederick Douglass Oct 20 2019 Frederick Douglass (1818--1895) was a prolific writer and public speaker whose impact on American literature and history has been long studied by historians and literary critics. Yet as political theorists have focused on the legacies of such notables as W. E. B. Du Bois and Booker T. Washington, Douglass's profound influence on Afro-modern and American political thought has often been undervalued. In an effort to fill this gap in the scholarship on Douglass, editor Neil Roberts and an exciting group of established and rising scholars examine the author's autobiographies, essays, speeches, and novella. Together, they illuminate his genius for analyzing and articulating core American ideals such as independence, liberation, individualism, and freedom, particularly in the context of slavery. The contributors explore Douglass's understanding of the self-made American and the way in which he expanded the notion of individual potential by arguing that citizens had

a responsibility to improve not only their own situations but also those of their communities. A Political Companion to Frederick Douglass also considers the idea of agency, investigating Douglass's passionate insistence that every person in a democracy, even a slave, possesses an innate ability to act. Various essays illuminate Douglass's complex racial politics, deconstructing what seems at first to be his surprising aversion to racial pride, and others explore and critique concepts of masculinity, gender, and judgment in his oeuvre. The volume concludes with a discussion of Douglass's contributions to pre-- and post--Civil War jurisprudence.

Life and Times of Frederick Douglass Apr 25 2020 Frederick Douglass recounts early years of abuse, his dramatic escape to the North and eventual freedom, abolitionist campaigns, and his crusade for full civil rights for former slaves. It is also the only of Douglass's autobiographies to discuss his life during and after the Civil War, including his encounters with American presidents such as Lincoln, Grant, and Garfield.

Frederick Douglass and Ireland Feb 16 2022 Frederick Douglass spent four months in Ireland at the end of 1845 that proved to be, in his own words, 'transformative'. He reported that for the first time in his life he felt like a man, and not a chattel. Whilst in residence, he became a spokesperson for the abolition movement, but by the

time he left the country in early January 1846, he believed that the cause of the slave was the cause of the oppressed everywhere. This book adds new insight into Frederick Douglass and his time in Ireland.

Contemporary newspaper accounts of the lectures that Douglass gave during his tour of Ireland (in Dublin, Wexford, Waterford, Cork, Limerick, and Belfast) have been located and transcribed. The speeches are annotated and accompanied by letters written by Douglass during his stay. In this way, for the first time, we hear Douglass in his own words. This unique approach allows us to follow the journey of the young man who, while in Ireland, discovered his own voice.

Witness and Memory Apr 18 2022 This is a collection within the anthropology of violence and witness studies, a discipline inaugurated in the 1980s. It accomplishes a tight focus while tackling seemingly disparate topics: from Rigoberta Menchu to O.J. Simpson, and from feminist poetry to Hiroshima Mon Amour. With approaches ranging from anthropological and historical to literary and philosophical, this collection is engaging in both subject matter and writing style.

The Cambridge Companion to the African American Slave Narrative Jul 09 2021 The slave narrative has become a crucial genre within African American literary studies and an invaluable record of the experience and history of slavery in the United States. This Companion

examines the slave narrative's relation to British and American abolitionism, Anglo-American literary traditions such as autobiography and sentimental literature, and the larger African American literary tradition. Special attention is paid to leading exponents of the genre such as Olaudah Equiano, Frederick Douglass and Harriet Jacobs, as well as many other, less well known examples. Further essays explore the rediscovery of the slave narrative and its subsequent critical reception, as well as the uses to which the genre is put by modern authors such as Toni Morrison. With its chronology and guide to further reading, the Companion provides both an easy entry point for students new to the subject and comprehensive coverage and original insights for scholars in the field.

My Escape from Slavery Nov 25 2022 Frederick Douglass was born a slave in Maryland around February 1818. He escaped in 1838, but in each of the three accounts he wrote of his life he did not give any details of how he gained his freedom lest slaveholders use the information to prevent other slaves from escaping, and to prevent those who had helped him from being punished.

A House Built by Slaves Mar 25 2020 Rediscover the forgotten story of how President Lincoln welcomed African Americans to his White House in America's most divided and war-torn era. Jonathan White illuminates

why Lincoln's then-unprecedented welcoming of African American men and women to the White House transformed the trajectory of race relations in the United States. From his 1862 meetings with Black Christian ministers, Lincoln began inviting African Americans of every background into his home, from ex-slaves from the Deep South to champions of abolitionism such as Frederick Douglass and Sojourner Truth. More than a good-will gesture, the president conferred with his guests about the essential issues of citizenship and voting rights. Drawing from an array of primary sources, *White* reveals how African Americans used the White House as a national stage to amplify their calls for equality. Even 155 years after the signing of the Emancipation Proclamation, Lincoln's inclusion of African Americans remains a necessary example in a country still struggling from racial divisions today.

Institutions, Institutional Change and Economic Performance Mar 05 2021 Continuing his groundbreaking analysis of economic structures, Douglass North develops an analytical framework for explaining the ways in which institutions and institutional change affect the performance of economies, both at a given time and over time. Institutions exist, he argues, due to the uncertainties involved in human interaction; they are the constraints devised to structure that interaction. Yet, institutions vary widely in their consequences for economic performance; some economies develop institutions that produce growth and

development, while others develop institutions that produce stagnation. North first explores the nature of institutions and explains the role of transaction and production costs in their development. The second part of the book deals with institutional change. Institutions create the incentive structure in an economy, and organisations will be created to take advantage of the opportunities provided within a given institutional framework. North argues that the kinds of skills and knowledge fostered by the structure of an economy will shape the direction of change and gradually alter the institutional framework. He then explains how institutional development may lead to a path-dependent pattern of development. In the final part of the book, North explains the implications of this analysis for economic theory and economic history. He indicates how institutional analysis must be incorporated into neo-classical theory and explores the potential for the construction of a dynamic theory of long-term economic change. Douglass C. North is Director of the Center of Political Economy and Professor of Economics and History at Washington University in St. Louis. He is a past president of the Economic History Association and Western Economics Association and a Fellow, American Academy of Arts and Sciences. He has written over sixty articles for a variety of journals and is the author of *The Rise of the Western World: A New Economic History*

(CUP, 1973, with R.P. Thomas) and *Structure and Change in Economic History* (Norton, 1981). Professor North is included in *Great Economists Since Keynes* edited by M. Blaug (CUP, 1988 paperback ed.)

Japan and Global Migration Nov 13 2021 *Japan and Global Migration* brings together current research on foreign workers and households from a variety of different perspectives. This influx has had a substantial impact on Japan's economic, social and political landscape. The book asks three major questions: whether the recent wave of migration constitutes a new multicultural age challenging Japan's identity as homogenous society; how foreign workers confront the many difficulties living in Japan; how Japanese society is both resisting and accommodating the growing presence of foreign workers in their communities. This book contains the most up to date, original data on Japanese migrant culture available. Its inescapable conclusion is that the multicultural age has finally come to Japan; the question is whether foreign workers will be legally and socially assimilated into the fabric of Japanese society or will continue to be treated as temporary entrants with limited civil rights. The book is written with postgraduate students in Asian studies, Japanese studies, political science, sociology, anthropology and migration studies, in mind.

Liberalism and the Good Jan 15 2022 First published in 1990. Liberalism and the Good is a collection of critical essays by an inter-disciplinary group of American and English scholars that seeks to address the long-standing problem of the good in light of the most recent developments in liberal theory. With contributions from both liberal apologists and critics who pursue arguments informed by sources as disparate as Nietzsche and Aristotle, it breaks fresh ground in a number of different directions and offers proposals for the future of the discussion.

Harriet Tubman Jun 20 2022 A New York Times Outstanding Book for young adult readers, this biography of the famed Underground Railroad abolitionist is a lesson in valor and justice. Born into slavery, Harriet Tubman knew the thirst for freedom. Inspired by rumors of an “underground railroad” that carried slaves to liberation, she dreamed of escaping the nightmarish existence of the Southern plantations and choosing a life of her own making. But after she finally did escape, Tubman made a decision born of profound courage and moral conviction: to go back and help those she’d left behind. As an activist on the Underground Railroad, a series of safe houses running from South to North and eventually into Canada, Tubman delivered more than three hundred souls to freedom. She became an insidious threat to the Southern establishment—and a

symbol of hope to slaves everywhere. In this “well-written and moving life of the ‘Moses of her people’” (The Horn Book), an acclaimed author makes vivid and accessible the life of a national hero, soon to be immortalized on the twenty-dollar bill. This intimate portrait follows Tubman on her journey from bondage to freedom, from childhood to the frontlines of the abolition movement and even the Civil War. In addition to being named a New York Times Outstanding Book, Harriet Tubman: Conductor on the Underground Railroad was also selected as an American Library Association Notable Book.

Frederick Douglass Mar 17 2022 \*\*Winner of the Pulitzer Prize in History\*\* “Extraordinary...a great American biography” (The New Yorker) of the most important African-American of the nineteenth century: Frederick Douglass, the escaped slave who became the greatest orator of his day and one of the leading abolitionists and writers of the era. As a young man Frederick Douglass (1818–1895) escaped from slavery in Baltimore, Maryland. He was fortunate to have been taught to read by his slave owner mistress, and he would go on to become one of the major literary figures of his time. His very existence gave the lie to slave owners: with dignity and great intelligence he bore witness to the brutality of slavery. Initially mentored by William Lloyd Garrison, Douglass spoke widely, using his own story to

condemn slavery. By the Civil War, Douglass had become the most famed and widely travelled orator in the nation. In his unique and eloquent voice, written and spoken, Douglass was a fierce critic of the United States as well as a radical patriot. After the war he sometimes argued politically with younger African Americans, but he never forsook either the Republican party or the cause of black civil and political rights. In this “cinematic and deeply engaging” (The New York Times Book Review) biography, David Blight has drawn on new information held in a private collection that few other historians have consulted, as well as recently discovered issues of Douglass’s newspapers. “Absorbing and even moving...a brilliant book that speaks to our own time as well as Douglass’s” (The Wall Street Journal), Blight’s biography tells the fascinating story of Douglass’s two marriages and his complex extended family. “David Blight has written the definitive biography of Frederick Douglass...a powerful portrait of one of the most important American voices of the nineteenth century” (The Boston Globe). In addition to the Pulitzer Prize, Frederick Douglass won the Bancroft, Parkman, Los Angeles Times (biography), Lincoln, Plutarch, and Christopher awards and was named one of the Best Books of 2018 by The New York Times Book Review, The Wall Street Journal, The Boston Globe, The Chicago Tribune, The San Francisco Chronicle, and

Time.

Stamped from the Beginning Aug 10 2021 Stamped from the Beginning is a redefining history of anti-Black racist ideas that dramatically changes our understanding of the causes and extent of racist thinking itself. \*\*

Winner of the US National Book Award\*\* Its deeply researched and fast-moving narrative chronicles the journey of racist ideas from fifteenth-century Europe to present-day America through the lives of five major intellectuals - Puritan minister Cotton Mather, President Thomas Jefferson, fiery abolitionist William Lloyd Garrison, brilliant scholar W.E.B. Du Bois, and legendary anti-prison activist Angela Davis - showing how these ideas were developed, disseminated and eventually enshrined in American society. Contrary to popular conception, it reveals that racist ideas did not arise from ignorance or hatred. Instead, they were devised and honed by some of the most brilliant minds of each era, including anti-slavery and pro-civil rights advocates, who used their gifts and intelligence wittingly or otherwise to rationalize and justify existing racial disparities in everything from wealth to health. Seen in this piercing new light, racist ideas are shown to be the result, not the

cause, of inequalities that stretch back over centuries, brought about ultimately through economic, political and cultural self-interest. Stamped from the Beginning offers compelling new answers to some of the most troubling questions of our time. In forcing us to reconsider our most basic assumptions about racism and also about ourselves, it leads us to a true understanding on which to build a real foundation for change. **\*\*INCLUDED IN BARACK OBAMA'S BLACK HISTORY MONTH READING LIST\*\***

Humility Sep 30 2020 The 21st century has seen a renewed interest in cultivating positive character traits, or virtues, to foster personal growth. Humility is a virtue that has long been understood--especially by early theological thinking and Western philosophers--through its associations with meekness and servility. Even in more recent, secular contexts, humility is associated with low-mindedness, self-denigration, and even self-loathing. While it seems paradoxical that this virtue can be developed to achieve a sense of well-being, this volume provides a comprehensive exploration of humility as an admirable and desirable trait that allows us to place the needs of others before our own, keep our accomplishments in perspective, and fully realize our small place in the world. In a series of multidisciplinary

essays spanning religious and secular traditions, this volume introduces readers to the many facets of humility. Essays explore perspectives from Christianity, Judaism, and Islam on the role of humility in determining how we should align ourselves with a higher spiritual power. Other essays examine the epistemic value of humility in the development of knowledge, and the applied nature of this virtue within the professional fields of politics, business management, nursing and hospice care, and competitive sports. This collection concludes by considering the possibility of humility as the most important virtue, foundational to the moral development and expression of all other virtues.

Women in the World of Frederick Douglass Dec 14 2021 "This biography of the circle of women around Frederick Douglass [examines] the connections between his public and private life [and reveals] connections among enslaved women, free black women, abolitionist circles, and nineteenth-century politics and culture in the North and South before and after the Civil War"--

In the Words of Frederick Douglass Oct 12 2021 "No people are more talked about and no people seem more imperfectly understood. Those who see us every day seem not to know us."—Frederick Douglass on African Americans "There is no negro problem. The problem is whether the American people have loyalty enough, honor enough, patriotism enough, to live up to their own constitution."—on civil rights "Woman should have justice as well as praise, and if she is to dispense with either, she can better afford to part with the latter than the former."—on women "The thing worse than rebellion is the thing that causes rebellion."—on rebellion "A man is never lost while he still earnestly thinks himself worth saving; and as with a man, so with a nation."—on perseverance "I am ever pleased to see a man rise from among the people. Every such man is prophetic of the good time coming."—on Lincoln Frederick Douglass, a runaway Maryland slave, was witness to and participant in some of the most important events in the history of the American Republic between the years of 1818 and 1895. Beginning his long public career in 1841 as an agent of the Massachusetts Anti-Slavery Society, Douglass subsequently edited four newspapers and championed many reform movements. An advocate of morality, economic accumulation, self-help, and equality, Douglass supported racial pride, constant agitation against racial discrimination, vocational education for

blacks, and nonviolent passive resistance. He was the only man who played a prominent role at the 1848 meeting in Seneca Falls that formally launched the women's rights movement. He was a temperance advocate and opposed capital punishment, lynching, debt peonage, and the convict lease system. A staunch defender of the Liberty and Republican parties, Douglass held several political appointments, frequently corresponded with leading politicians, and advised Presidents Lincoln, Grant, Hayes, Garfield, and Harrison. He met with John Brown before his abortive raid on Harpers Ferry, helped to recruit African American troops during the Civil War, attended most national black conventions held between 1840 and 1895, and served as U.S. ambassador to Haiti. Frederick Douglass has left one of the most extensive bodies of significant and quotable public statements of any figure in American history. In the Words of Frederick Douglass is a rich trove of quotations from Douglass. The editors have compiled nearly seven hundred quotations by Douglass that demonstrate the breadth and strength of his intellect as well as the eloquence with which he expressed his political and ethical principles.

Game Theory and Minorities in American Literature Feb 04 2021 This interdisciplinary monograph applies the theory of games of strategy (or game theory) to an important subset of American literature: minoritarian texts. Fittingly, John von Neumann's game theory, as a mathematical subdiscipline practically abandoned by its founder after the publication of 'Zur Theorie der Gesellschaftsspiele' (1928), but purposefully reengaged with on his permanent relocation to America in 1938, carries the minoritarian credentials of a Hungarian-born national of Jewish descent. The state of international politics in the late 1930s certainly contributed to von Neumann's renewed interest in his theory, but a socioeconomic environment built on the legacy of slavery focused a reengagement with coordination problems that would last until his death. In these strategic situations, people must make choices in the knowledge that other people face the same options and that the outcome for each person will result from everybody's decisions. The four most frequently encountered coordination problems are the Stag Hunt,

the Prisoner's Dilemma, Chicken, and Deadlock  
Minoritarians find majoritarian attempts to control these social dilemmas particularly challenging. Hence, a game-theoretically inflected hermeneutic that identifies the logical, rational, and strategic state of human interrelations not only helps to categorize, but also to analyze minoritarian texts. The authors under detailed consideration are Benjamin Franklin, Frederick Douglass, Harriet A. Jacobs, Zora Neale Hurston, William Faulkner, Toni Morrison, and Mohsin Hamid.

The Slaves Oct 24 2022 "The Slaves" is nothing but Frederick Douglass's groundbreaking autobiography and his first book "Narrative of the Life of Frederick Douglass, An American Slave, written by Himself". We have renamed the title here as "The Slaves" to keep the title short as well as to establish that Frederick Douglass is no longer a name of a particular slave born in nineteenth-century America, but a name that represents slaves of the entire world and of all time. Even though, we do not wish anyone to be born into slavery anymore like Frederick was, we have taken him as a symbol of all the slaves as a wish that all who are still in slavery may have the spirit of Frederick Douglass and fight their ways to the freedom and work to free other slaves to make the slavery history. The life of Frederick, is in one way or another, is the lives of all other slaves. Hence, we have named this version of his book "The Slaves".
