Friend Or Foe? Oct 20 2019 "A lonely mouse lived in a small house beside a great palace. In the great palace lived a cat." Each night the mouse gazes up at the cat in the palace tower. Is the cat my friend? he wonders. Determined to find out, he bravely makes his way into the palace through a tiny hole and climbs all the way up to the tower, where the cat sits on the windowsill. "Hello, are you friend or foe?" he squeaks. This simple story by John Sobol has a surprising outcome, giving young readers a chance to draw their own conclusions. It is perfectly complemented by Dasha Tolstikova's subtle yet striking illustrations.

French Or Foe? Apr 18 2022 Polly Platt's title French or Foe? is more timely than ever, as the Franco-American alliance frays a little more with each day, the exchanges more vitriolic than ever before. Her book has long been the reference for what it is about the French that rubs Americans the wrong way, why the Franco-American alliance has difficulties, and how to handle French people.... and find out, she says, "how wonderful they are." Now in the third edition, she examines the revolution of the last few years brought about by the computer and the Internet. Interviews with many American and French executives explain the differences .. and the similarities .. in procedures in the work place compared five years ago. In addition, French or Foe?Us third edition describes the "French exceptions" of the last few years: the Messier scandal, the reasons why France was voted the Workers' Paradise in 2002; the romantic Look, version 2003; the government's new measures to

Churchill's Colonel Jul 29 2020 A British officer's day-to-day observations throw "interesting light on life and soldiering during the Second World War." —The NYMAS Review Anthony Barne started his diary in August 1939 as a young, recently married captain in the Royal Dragoons stationed in Palestine. He wrote an entry for every day of the war, often with great difficulty, sometimes when dog-tired or under fire, sometimes when things looked dark and desperate, but more often in sunshine and optimism—"surrounded by good fellows who kept one cheerful and helped one through the sad and difficult times." His diary ends in July 1945, by which time he was commanding officer of the 4th Hussars, having recently visited Downing Street for lunch alone with the Churchills. The diaries have an enormous scope, covering time in Palestine and Egypt before he joins the Eighth Army, describing the retreat back to El Alamein, the battle and its aftermath. He ends the campaign commanding his regiment. He often graphically details the physical realities of war: the appalling conditions in the desert, the bombardments of the regiment from the air, the deaths and serious injuries of fellow soldiers. In 1943, he flies down to Rhodesia to see his wife and infant son before returning to Cairo to join Churchill's regiment, the 4th Hussars. Arriving in Italy in 1944, he recounts the campaign as the Allies push north. With a tone that varies wildly—often witty, sometimes outrageous, but also poignant and philosophical—this is not just a memoir of war but a portrait of another time that showcases the author's warmth and keen eye for the absurd.

Foe-Farrell Nov 13 2021 As for me, I had rooms at first in Jermyn Street, then chambers in the Inner Temple—my father, who had been Chairman of Quarter Sessions, holding the opinion that I ought to read for the Bar, that I might be better qualified in due time to deal out local justice down in Warwickshire. I read a little, played cricket a good deal, stuck out three or four London Seasons, travelled a bit, shot a bit in East Africa (Oh, I forgot to say I'd put in a year in the South African War); climbed a bit, in Switzerland, and afterwards in the Himalayas; come home to write a paper for the Geographical Society; got bitten with Socialism and certain Fabian notions, and put in some time with an East-End Settlement besides attending many crowded and unsavoury public meetings to urge what was vaguely known as Betterment. When I took courage and made a clean breast of my new opinions to my father, the old man answered very composedly that he too had been a Radical in his time, and had come out of it all right. É By all means let me go on with my spouting: capital practice for public life: hoped I should take my place one of these days in the County Council at home: wouldn't even mind seeing me in Parliament, etc.Ñall with the wise calm of one who has passed his three-score years and ten, found the world good, made it a little better, hunted his own harriers and learnt, long since, every way in which hares run. So I returned

and somehow found myself pledged to compete as a Progressive for the next London County Council for a constituency down Bethnal Green way. In all this, you see, my orbit and Foe's wouldn't often intersect. But we dined together on birthdays and other occasions. One year I took him down to the Derby, on the ground that it was part of a liberal education. In the paddock he nodded at a horse in blinkers and said, "What's the matter with that fellow?" "St. Amant," said I, and began to explain why Hayhoe had put blinkers on him. "Where does he stand in the betting?" asked Foe. "Why, man," said I, "at 5 to 1. You can't risk good money on a horse of that temper. I've put mine on the French horse over there—Gouvernant—neasy favourite—7 to 4 on." "Oh," said he, in a silly sort of way, "I thought St. Amant might be your French horse—'tis a French name isn't it?" "As for your Gouvernant, I advise you to run for your life and hedge: the animal is working up for a stage fright. A touch more and he's dished before the flag drops. Now, whether the blinkers have done it or not, that St. Amant is firm as a rock." "How the devil—" I began. "That's a fine horse, too, over yonder," he said, pointing one out with his umbrella. "John o' Gaunt," said I: "ran second to St. Amant for the Guineas, and second to Henry the First in the Newmarket, with St. Amant third. The running has been all in-and-out this season. But how the devil you spotted him, when I didn't know you could tell a horse's head from his stern—" "I don't profess to much more," said Foe; "but it's my job to read an animal's eye, and what he's fit for by the quiver under his skin. Now, I'd only a glimpse of St. Amant's eye, across his blinkers, and your John o' Gaunt is a stout one—inclined, you tell me, to run in second place. But if your money's on Gouvernant, hurry while there's time and set it right. If you've thirty seconds to spare when you've done that," he added, "you may put up a tenner for me on St. Amant—but don't bother. Your book may want some arranging."

Applying for a shipboard radio job just before his 18th birthday, Joe meets and is seduced by Kate Nelson, the company president's secretary. He becomes involved in a continuing feud with "Bull" Taylor, the ship's first mate. He learns that both his parents are killed in an auto accident. Joe, despondent over the loss of Takeo and his parents turns to whiskey and women. In a stop-over in Hawaii he meets and falls in love with a nisei, Myoshi. After a short-lived affair, Joe departs Hawaii. When his ship strikes a Japanese mine near Makin Island, Joe is the sole survivor. Rescued by native fishermen he is taken to a hospital on a French controlled island. Regaining his health, he is taken to Australia where he is induced by the officer in charge of coast watchers to serve a half-year stint on an isolated island. After reporting enemy ship movement during the Battle of the Coral Sea, Joe is unnerved when he sees a one-armed man put ashore on the opposite end of the island by Japanese navy men. He later discovers that the one armed man is his old friend. Takeo had lost an arm when attacked by sharks, and was no longer an asset to the IJN as a fighting man. The two renew their old friendship even though their countries are at war - friend and foe. They enjoy their island life even though alarmed by several incidents that threatened discovery. When the time comes for Joe to be relieved of his duty, he sadly leaves his friend alone on the island.

He is a national treasure, a man of superb wit, spirit and charm. He is motivator par excellence, my mentor and dearest friend who has enriched my life and that of so many others. These stories are a must read for all who treasure the values and lessons of life that we all cherish." - Mark Bernardino, Head Swim Coach University of Virginia "As his athlete, fellow coach and friend, I have been clearly inspired by Coach Easterling's passion for story telling and his gift of finding the words to motivate us all." - Beth Harrell, Head Swimming Coach North Florida University "I remember vividly receiving my first Christmas Story in 1990. It came none too soon. Christmas training of my freshman year in college was tough and a heart warming, inspirational and entertaining story was certainly welcomed. Your Christmas stories have delighted for decades. In the busy world we live in: They remind us that reflection inspires & heals; They teach us to find joy in the little things; They truly remind us how to get in the Christmas spirit. The art of story telling is one of many arts that you have mastered. Nothing gets us in the spirit like your stories. They are timeless and will be enjoyed by many for generations to come." - David Fox, Goldman Sachs, Olympic Gold Medalist "As Coach Don tells his story you follow along with your own story because he has taken you back to a time forgotten until the echoes come flooding back. When the story is read and I have a couple of laughs and wipe away the tears, I carefully fold the story back up and place it safely back in its' envelope and I take a moment to say, "Thanks Coach"." - Doug Russell, 2-time Olympic Gold Medalist

Thanks to preservation efforts, however, audiences will be able to read Quiller-Couch's work for years to come. Narrated by a military man, this book follows army men and the society in which they operate. Being able to look at the world through different perspectives is an important contribution books make to the world, and this is no different.

Oppose Any Foe Sep 30 2020 Oppose Any Foe is the epic story of America's most elite warriors: the Special Operations Forces. Born as small appendages to the conventional armies of World War II, the Special Operations Forces have grown into a behemoth of 70,000 troops, including Navy SEALs, Army Special Forces, Air Force Night Stalkers, Special Operations Marines, Rangers, and Delta Force. Weaving together their triumphs and tribulations, acclaimed historian Mark Moyar introduces a colorful cast of military men, brimming with exceptional talent, courage and selflessness. In a nation where the military is the most popular institution, America's Special Operations Forces have become the most popular members of the military. Through nighttime raids on enemy compounds and combat advising of resistance movements, special operators have etched their names into the nation's registry of heroes. Yet the public knows little of the journey that they took to reach these heights, a journey that was neither easy nor glamorous. Fighting an uphill battle for most of their seventy-five year history, the Special Operations Forces slipped on many an occasion, and fell far on several. Presidents from Franklin Roosevelt to Barack Obama have enthusiastically championed Special Operations Forces, but their enthusiasm has often surpassed their understanding, resulting in misuse or overuse of the troops. Lacking clearly defined missions, Special Operations Forces have had to reinvent themselves time and again to prove their value in the face of fierce critics-many of them from the conventional military, which from the start opposed the segregation of talent in special units. Highlighting both the heroism of America's most elite soldiers and the controversies surrounding their meteoric growth, Oppose Any Foe presents the first comprehensive history of these special warriors and their daring missions. It is essential reading for anyone interested in America's military history-and the future of warfare.

The 'Black Cats' flew Nieuport 'pursuit' aircraft—first 17s and latterly 24s. Wellman named his own plane Celia—after his mother. In his career as a fighter pilot Wellman chalked up three confirmed 'kills' and five 'probables' before eventually being shot down by German anti-aircraft fire in March 1918. He was awarded the Croix de Guerre with two palms. Due to his crash injury he was invalided out of French service and returned to the United States where he began a highly regarded career as a film director. Becoming East German Aug 18 2019 For roughly the first decade after the demise of the GDR, professional and popular interpretations of East German history concentrated primarily on forms of power and repression, as well as on dissent and resistance to communist rule. Socio-cultural approaches have increasingly shown that a single-minded emphasis on repression and coercion fails to address a number of important historical issues, including those related to the subjective experiences of those who lived under communist regimes. With that in mind, the essays in this volume explore significant physical and psychological aspects of life in the GDR, such as health and diet, leisure and dining, memories of the Nazi past, as well as identity, sports, and experiences of everyday humiliation. Situating the GDR within a broader historical context, they open up new ways of interpreting life behind the Iron Curtain – while providing a devastating critique of misleading mainstream scholarship, which continues to portray the GDR in the restrictive terms of totalitarian theory.

Friend & Foe Nov 25 2022 What does it take to succeed? This question has fueled a long-running debate. Some have argued that humans are fundamentally competitive, and that pursuing self-interest is the best way to get ahead. Others claim that humans are born to cooperate and that we are most successful when we collaborate with others. In FRIEND AND FOE, researchers Galinsky and Schweitzer explain why this debate misses the mark. Rather than being hardwired to compete or cooperate, we have evolved to do both. In every relationship, from co-workers to friends to spouses to siblings we are both friends and foes. It is only by learning how to strike the right balance between these two forces that we can improve our long-term relationships and get more of what we want. Here, Galinsky and Schweitzer draw on original, cutting edge research from their own labs and from across the social sciences as well as vivid real-world examples to show how to maximize success in work and in life by deftly navigating the tension between cooperation and competition. They offer insights and advice ranging from: how to gain power and keep it, how to build trust and repair trust once it's broken, how to diffuse workplace conflict and bias, how to find the

right comparisons to motivate us and make us happier, and how to succeed in negotiations – ensuring that we achieve our own goals and satisfy those of our counterparts. Along the way, they pose and offer surprising answers to a number of perplexing puzzles: when does too much talent undermine success; why can acting less competently gain you status and authority, where do many gender differences in the workplace really come from, how can you use deception to build trust, and why do you want to go last on American Idol and in many interview situations, but make the first offer when negotiating the sale of a new car. We perform at our very best when we hold cooperation and competition in the right balance. This book is a guide for navigating our social and professional worlds by learning when to cooperate as a friend and when to compete as a foe—and how to be better at both.

Foe Mar 17 2022 With the same electrical intensity of language and insight that he brought to *Waiting for the Barbarians*, J.M. Coetzee reinvents the story of Robinson Crusoe—and in so doing, directs our attention to the seduction and tyranny of storytelling itself. J.M. Coetzee's latest novel, *The Schooldays of Jesus*, is now available from Viking. *Late Essays: 2006-2016* will be available January 2018. In 1720 the eminent man of letters Daniel Foe is approached by Susan Barton, lately a castaway on a desert island. She wants him to tell her story, and that of the enigmatic man who has become her rescuer, companion, master and sometimes lover: Cruso. Cruso is dead, and his manservant, Friday, is incapable of speech. As she tries to relate the truth about him, the ambitious Barton cannot help turning Cruso into her invention. For as narrated by Foe—as by Coetzee himself—the stories we thought we knew acquire depths that are at once treacherous, elegant, and unexpectedly moving.
