In the new edition of *BIOLOGY: A HUMAN EMPHASIS*, authors Cecie Starr, Christine A. Evers, and Lisa Starr have partnered with the National Geographic Society to develop a text designed to engage and inspire. This trendsetting text introduces the key concepts of biology to non-biology majors using clear explanations and unparalleled visuals. While mastering core concepts, each chapter challenges students to question what they read and apply the concepts learned, providing students with the critical thinking skills and science knowledge they need in life. Renowned for its writing style the new edition is enhanced with exclusive content from the National Geographic Society, including over 200 new photos and illustrations. New People Matter sections in most chapters profile National Geographic Explorers and Grantees who are making significant contributions in their field, showing students how concepts in the chapter are being applied in their biological research. Each chapter concludes with an Application section highlighting real-world uses of biology and helping students make connections to chapter content. Providing selected chapters from *BIOLOGY: CONCEPTS AND APPLICATIONS*, this text is ideal for courses that emphasize human applications. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Strike the perfect balance between level of detail and accessibility! Written for a one-semester, non-Biology majors course, *BIOLOGY TODAY AND TOMORROW* is packed with applications that are relevant to a student's daily life. The clear, straightforward writing style, in-text learning support, and trendsetting art engage students and help them understand key concepts. The accompanying MindTap for Biology is the most engaging and easiest to customize online solution in Biology. Overall, this accessible introduction helps students develop an understanding of biology and the process of science while building the critical-thinking skills they need to become responsible citizens of the world. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Clear, engaging, and visual, *BIOLOGY: CONCEPTS AND APPLICATIONS*, 8e, International Edition equips non-biology majors with the science they'll need in life! Renowned for its writing style and trendsetting art, the new edition includes an enhanced visual pedagogy, learning features, and media options. Helping visual learners, "Figure It Out" questions in many illustrations ensure students understand the concepts. The new Data Analysis Activities at the end of every chapter help students strengthen their analytical skills. New "Take Home Messages" ensure students grasp key concepts while special features like the chapter opening case studies and "How Would You Vote?" questions enliven the subject matter and make relevant connections between biology and real-life concerns. Helpful media options include new pop-up tutors that help explain key topics with short video explanation and the robust, interactive Aplia program that connects with today's students. Throughout this issues-oriented text, the authors emphasize that biology is an ongoing endeavor carried out by a diverse community of people and prepare students to make decisions that require an understanding of the process of science and basic biological principles. Accompanys: 9780840061669 . *BASIC CONCEPTS IN BIOLOGY* supplies a 650 page, introductory issues-oriented approach with enormous instructional power. This title has content identical to Starr's longer *BIOLOGY, CONCEPTS AND APPLICATIONS*, Sixth Edition, except for the omission of plant and animal physiology. The "Impacts, Issues" and "How Would You Vote?" features new to this edition make biology come alive. An "Impacts, Issues" case study opens each chapter focusing on a biology-related societal issue. Short films that expand on the issue are on the free Student CD. Each chapter's "How Would You Vote?" asks students to consider biology-related news, apply knowledge, cast a vote on the web and see voting tallies. The access codes that accompany all new copies provide online access to 1) BiologyNow, a learning tool that helps students assess their unique study needs through pretests, post-test and personalized learning plans; 2) InfoTrac, a library of full text articles; 3) vMentor, a live tutoring service and 4) "How Do I Prepare," a feature that allows students to review basic math, chemistry, and other skills that will help them more easily master introductory biology. And now with an MP3 download of this title, you don't have to lose prep time during a long commute any MP3 player lets you or your students listen and review the text at the gym, in the library, at the office anywhere! Starr is the most successful author in non-majors biology because of her clear and engaging writing, trend-setting art, and unparalleled student and instructor media. This brief and specialized

book was designed for general non-major biology courses and includes population ecology, communities, ecosystems, biosphere, human impact on the biosphere, and animal behavior. *ECOLOGY AND BEHAVIOR* covers Unit VII from *BIOLOGY: THE UNITY AND DIVERSITY OF LIFE*, 11th Edition. For the 11th edition of *BIOLOGY: UNITY AND DIVERSITY OF LIFE*, Cecie Starr and Ralph Taggart made it their goal to "solve" some of the toughest Introductory Biology course challenges. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Cecie Starr is the most successful author in non-majors biology because of her clear and engaging writing, trend-setting art, and unparalleled media. *BIOLOGY TODAY AND TOMORROW*, her most concise text, provides a precise, issues-oriented approach and "solves" some of the toughest course challenges: engaging students, linking concepts from chapter to chapter, easily monitoring students' progress and simplifying lecture prep. Show students how biology matters: opening each chapter with engaging essays on hot issues and related online voting, the text highlights the connections between biology and real-life. Online exercises promote critical thinking about issues students will face as consumers, parents and citizens. Link concepts from chapter to chapter: since students have a difficult time linking concepts, the authors created a new "linking" tool. A list at the start of each chapter reminds students of related topics that were explained earlier. Within chapters, a key icon identifies cross-references to relevant sections in earlier chapters. As students work through the text, they see how topics build upon one another. Monitor students' progress with ease: BiologyNow offers diagnostic quizzes with automatically graded results that flow directly into your instructor grade book (iLrn, WebCT or BlackBoard). And, to assess students' progress instantly with in-class quizzes and polls, you can use JoinIn on TurningPoint content and software. Enjoy easier lecture prep: The new PowerLecture tool integrates all electronic chapter assets - art, photos, animations, videos, links to InfoTrac articles, web links, bulleted text slides, and everything else you need into each chapter's lecture slides. This "buffet" of media resources-arranged by chapter section-is at your fingertips. This four-color lab manual contains 20 lab exercises, most of which can be completed within two hours and require minimal input from the instructor. To provide flexibility, instructors can vary the length of most exercises, many of which are divided into several parts, by deleting portions of the procedure without sacrificing the overall

purpose of the experiment. Each exercise is cross-referenced with pages in the Starr/McMillan text and the Knapp text and follows this format: Objectives, Introduction, Materials, Procedure (with each step numbered), Pre-lab questions, and Post-lab questions. Instructors can combine black-and-white versions of this manual with selected exercises in the Shelp lab manual to make a customized one-color manual. They can also include their own exercises. Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included.
