"This workbook will introduce your child to grade four vocabulary and reading comprehension exercises in a step-by-step manner"--Cover [p. 1]. The perfect way to begin your students school day! Cross-curricular daily practice gets your fourth grade students focused and engaged and ready to learn. The daily lessons provide practice of language, math, and reading skills that support your core curriculum.

The meaningful 10 to 15 minutes of daily practice helps sharpen students skills and helps you see where your students need to improve. With a detailed scope and sequence, you will always know the skills that your students are practicing. Daily Fundamentals lessons are ideal for morning work, bell ringers, homework, and informal assessment. The daily practice and review prepares students for success on assessments and state testing. Macmillan/McGraw-Hill Grade 4 MISSOURI Edition invites students to be a participant in Missouri's story from its earliest peoples to the challenges of today. Each unit is developed around the BIG

IDEAS of social studies that help students focus and gain a deeper understanding of the Missouri Academic Content Standards. The Missouri program builds geographic mastery with map and chart skills, offers reading skills and strategies to reinforce Reading/Language Arts, and integrates Dinah Zike's Foldables™ to help students improve comprehension. This program also features rich literature selections, primary sources, and Readers' Theaters that bring Missouri history alive, citizenship pages that show real-life participation in democracy, and biographies that help students learn about the lives of people who have

made a difference throughout Missouri's history. The program includes Missouri Academic Content Standards for each lesson, as well as built-in Missouri Test Preparation in every unit assessment. • Available as a single hard cover volume • 8 ½ X 11"; 378 pages It is important that young children understand how the modern conveniences were formed in order to raise awareness and appreciation to the people who invented them. This book contains essential facts on the people who have invented some of the most useful devices today. You know your child needs this copy so grab one today! Singapore Math creates a deep

understanding of each key math concept, is a direct complement to the current textbooks used in Singapore, includes an introduction explaining the Singapore Math method, and includes step-by-step solutions in the answer key. Singapore Math, for students in grades 2 to 5, provides math practice while developing analytical and problem-solving skills. Learning objectives are provided to identify what students should know after completing each unit, and assessments are included to ensure that learners obtain a thorough understanding of mathematical concepts. Perfect as a supplement to classroom

work, these workbooks will boost confidence in problem-solving and critical-thinking skills! Critical thinking skills are more important than ever in academic and real-world situations. Daily Higher-Order Thinking provides you with daily activities that build and grow students' problem-solving skills in engaging formats such as logic and visual puzzles, brainteasers, creative writing, picture comparison, word play, and "what if" questions. Daily 20-minute practice lessons help students apply critical thinking skills across subject areas. The lessons develop students' higher-order thinking skills and allow them to integrate their learning and make deeper

connections between their learning and the real world. Use Daily Higher-Order Thinking for warm-up exercises, extension activities, early finisher tasks, and small-group center activities to develop your students' critical and creative thinking skills. How it works: - Monday-Friday: Full-page daily activities focus on a specific behavioral verb each day. The verb is defined at the top of the page so students become aware of when and how they are using the thinking skill. - Each full-page activity gives students an opportunity to practice a higher-order thinking skill in the context of a different curriculum area. - Questions and tasks are open-

ended and can be used to promote peer-to-peer discussions as students share and discuss answers, while also fostering critical thinking skills. - An answer key provides sample responses for each day's activities. Evaluate students' responses based on your own expectations and on what content your students have encountered. Grade 4 activities include: logic puzzles, creative writing, picture comparisons, and "what if" questions. Daily lessons practice higher-order thinking skills such as: - Analyzing - Predicting - Designing - Composing - Organizing - Evaluating - Imagining - Strategizing All the Math Your

4th Grader Needs to Succeed This book will help your elementary school student develop the math skills needed to succeed in the classroom and on standardized tests. The user-friendly, full-color pages are filled to the brim with engaging activities for maximum educational value. The book includes easy-to-follow instructions, helpful examples, and tons of practice problems to help students master each concept, sharpen their problem-solving skills, and build confidence. Features include: • A guide that outlines national standards for Grade 4 • Concise lessons combined with lot of practice that promote better scores—in class

and on achievement tests • A pretest to help identify areas where students need more work • End-of-chapter tests to measure students' progress • A helpful glossary of key terms used in the book • More than 1,000 math problems with answers Topics covered: • Adding and subtracting • Multiplying and dividing • 2-, 3-, and 4-digit numbers • Rounding and estimating • Prime numbers, factors, and multiples • Operations with fractions and mixed numbers • Decimals • Customary and metric units of measure • Lines, angles, triangles, quadrilaterals, and circles • Perimeter and area • Data line plots • Word problems •

Multistep problems and variables Make sure your students develop the rich vocabulary that's essential to successful reading comprehension and academic achievement with *A Word a Day*. Each book in this newly revised series covers 144 words in 36 engaging weekly units. Don't have students just memorize vocabulary words ... give them the tools they need to understand and apply the words! Help your students learn 144 new words with the focused daily practice in *A Word a Day, Grade 4*. Activities such as identifying attributes, making personal connections, and completing graphic organizers give students

multiple exposures to the words, helping them to develop the vocabulary they need to be successful on assessments and in the classroom. Examples of vocabulary words presented in *Grade 4*: * obligation, command, compete * dilemma, resource, random * spontaneous, lackadaisical, treacherous * drenched, massive, predicament Sam has the best seat in second grade—right next to George Washington, the class pet! Sam brings his hamster buddy on the class field trip to the science museum...but disaster strikes when George jumps from Sam's pocket into the museum's Hamster Habitat. "Carter's expressive watercolor

illustrations help bring the kids in room 75 and their furry pet to life," commented Kirkus. The Best Seat in Second Grade is a Level Two I Can Read book, geared for kids who read on their own but still need a little help. Whether shared at home or in a classroom, the engaging stories, longer sentences, and language play of Level Two books are proven to help kids take their next steps toward reading success. "Journeys is a research-based, comprehensive English Language Arts program developed by literacy experts and backed by proven results"--Program Consultants page, ii in Teacher's editions Inquiry-based general science curriculum for the fourth grade

featuring a text/workbook that students can write in. The Jacob's Ladder Reading Comprehension Program targets reading comprehension skills in high-ability learners by moving students through an inquiry process from basic understanding to critical analyses of texts, using a field-tested method developed by the Center for Gifted Education at William and Mary. Students in grade 4 will learn to comprehend and analyze any reading passage after completing the activities in Jacob's Ladder, Grade 4 (2nd ed.). Research conducted by the Center for Gifted Education with Title 1 students demonstrated that the Jacob's

Ladder Reading Comprehension Program delivers results related to improved reading comprehension, increased critical thinking, and an enhanced interest in reading. Using skill ladders connected to short stories, poetry, essays, and nonfiction, students move from lower order, concrete thinking skills to higher order, critical thinking skills. The ladders include multiple skills necessary for academic success, covering language arts standards such as sequencing, determining cause and effect, classifying, inferencing, and recognizing main ideas. The second edition of the book builds off the previous Level 2

edition, including new readings and ladders for student use. The "Jacob's Ladder" guide provides teachers with an explanation of the nature of supplementary tasks that scaffold reading comprehension. Also included in the guide is an overview of the goals and objectives of the "Jacob's Ladder" tasks and suggestions for implementation, giving every teacher the tools needed to promote successful reading comprehension. The perfect way to begin your students school day! Cross-curricular daily practice gets your third grade students focused and engaged and ready to learn. The daily lessons provide practice

of language, math, and reading skills that support your core curriculum. The meaningful 10 to 15 minutes of daily practice helps sharpen students skills and helps you see where your students need to improve. With a detailed scope and sequence, you will always know the skills that your students are practicing. Daily Fundamentals lessons are ideal for morning work, bell ringers, homework, and informal assessment. The daily practice and review prepares students for success on assessments and state testing. An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Based on the highly

successful Primary Mathematics series from Singapore. Designed to equip students with a strong foundation in mathematics and critical thinking skills, this program offers an integrated solution to learning needs in the classroom for grade 4. Science Lessons & Investigations presents science learning through in-depth investigation and observation, supporting Next Generation Science Standards (NGSS). Each unit guides students through exploring a science concept and includes hands-on activities to extend learning. This robust teaching resource gives you everything you need, including teacher support

pages, informational text and graphics, vocabulary review, reading and writing activities, and hands-on science projects. Students apply science, technology, engineering, and math concepts to solve real-world problems. Each of the 15 units focuses on a hands-on challenge in which students work together as engineers to design, prototype, test, and refine their creations. Topics support NGSS. Book jacket. Develop your grade 4 students' writing skills in each of the six traits--Ideas, Organization, Word Choice, Sentence Fluency, Voice, and Conventions--using 125 engaging, 10- to 15-minute writing lessons. - 125 trait-

based lessons - 25 weeks of instruction - Each weekly unit includes: -teacher lesson plan -4 reproducible student pages - writing prompt - Supports any writing program - Models many forms of writing - Teacher rubric Brain Quest is beloved by kids, trusted by parents, used and recommended by teachers. It's the curriculum-based, fast-paced, question-and-answer game that challenges kids on the stuff they need to know, when they need to know it. It's the brand that says "It's fun to be smart!" And it delivers. For the fourth edition every deck is thoroughly revised and includes 20 percent new material. The content aligns

with national and state standards and is overseen by the Brain Quest Advisory Board, a panel of award-winning educators, each a recent state teacher-of-the-year award winner or a recipient of the prestigious Milken Educator Award. The covers and cards have a refreshed design, giving Brain Quest a cooler, updated look. 180 Days of Social Studies is a fun and effective daily practice workbook designed to help students build social studies content knowledge. This easy-to-use fourth grade workbook is great for at-home learning or in the classroom. The engaging standards-based activities cover grade-level skills with

easy to follow instructions and an answer key to quickly assess student understanding. Each week students explore a new topic focusing on one of the four social studies disciplines: history, civics, geography, and economics. Watch student's confidence soar as they build analytic skills with these quick independent learning activities. Parents appreciate the teacher-approved activity books that keep their child engaged and learning. Great for homeschooling, to reinforce learning at school, or prevent learning loss over summer. Teachers rely on the daily practice workbooks to save them valuable time. The ready to implement activities

are perfect for daily morning review or homework. The activities can also be used for intervention skill building to address learning gaps. Supports the C3 Framework and aligns to the NCSS curriculum standards. This set provides the consumable Student Edition, Volume 1, which contains everything students need to build conceptual understanding, application, and procedural skill and fluency with math content organized to address CCSS. Students engage in learning with write-in text on vocabulary support and homework pages, and real-world problem-solving investigations. Provides

material for teachers and lesson runners with detailed lessons for strategy instruction and a scope and sequence for teaching reading comprehension at grade 6. Volume 1 of 2. Complete EnglishSmart (New Edition) is a curriculum-based workbook series that provides ample practice for developing and improving English skills. Concise explanations with examples are provided before practice to guide children along. The systematically-designed activities cover the key areas of learning - listening comprehension, grammar, vocabulary, reading, and writing. Accompanying online audio clips are included to help

children develop their listening skills. Your child will find

working through Complete EnglishSmart a fun and rewarding experience.
