Its advanced technology means the submarines will never need to be refuelled. They employ the latest technology such as the Sonar 2076 that detects the sound of enemy submarines using the largest number of hydrophones ever fitted to a submarine. Linked with powerful onboard electronics these provide the submarines with outstanding sensitivity. The Astute submarines are armed with the latest versions of Spearfish heavy-weight torpedoes and Tomahawk land-attack cruise missiles. Or would you get them on the court and have them play? In basketball, the answer is easy&BAD:—you do both. So why teach politics only as a spectator sport? Senator Bob Graham believes that students should expand on their classroom learning about the political system: he spurs them to hit the court and actually play the game. If students work on an issue they care about, politics will become a meaningful and positive experience. This short, how-to guide takes students out of theoretical discussions of policy and into a world where they can affect change. Graham&BAD:'s goal is to have students identify a problem, and then walk them through each step from researching the issue, to getting others involved, to engaging the media. Each chapter starts with a real case, showing citizens tackling a step in the process, and ends with a

summary checklist and a series of questions that help students put Graham&BAD:'s game plan in action. By offering students concrete guidance, an array of resources, and advice for troubleshooting and overcoming barriers, this compact user&BAD:'s guide gets students way beyond textbook learning. Thirty-five years ago, as a member of the Florida Legislature, Bob Graham took on the challenge of civic education for eighteen weeks at a Miami-area high school. His time as both a governor and a senator has only strengthened his resolve to pique students&BAD:' curiosity about politics and teach them to get what they want from government.
