Implementing IBM Storage Data Deduplication Solutions Apr 04 2021

Until now, the only way to capture, store, and effectively retain constantly growing amounts of enterprise data was to add more disk space to the storage infrastructure, an approach that can quickly become cost-prohibitive as information volumes continue to grow and capital budgets for infrastructure do not. In this IBM® Redbooks® publication, we introduce data deduplication, which has emerged as a key technology in dramatically reducing the amount of, and therefore the cost associated with storing, large amounts of data. Deduplication is the art of intelligently reducing storage needs through the elimination of redundant data so that only one instance of a data set is actually stored. Deduplication reduces data an order of magnitude better than common data compression techniques. IBM has the broadest portfolio of deduplication solutions in the industry, giving us the freedom to solve customer issues with the most effective technology. Whether it source or target, inline or post, hardware or software, disk or tape, IBM has a solution with the technology that best solves the problem. This IBM Redbooks publication covers the current deduplication solutions that IBM has to offer: IBM ProtecTIER® Gateway and Appliance IBM Tivoli® Storage Manager IBM System Storage® N series

Deduplication

The Radio Today Guide to the Icom IC-7610 Dec 27 2022 This is the book I wish I had when I bought my Icom IC-7610. It includes useful tips and tricks for the configuration and operation of the fabulous Icom IC-7610 transceiver. Rather than duplicate the manuals which describe each button, function, and control, I have used a more functional approach. This is a "how to do it" book with easy to follow step by step instructions.

Technical Manual User Handbook Truck, Utility, Lightweight, MC2 Mar 26 2020 This is the User Handbook for the Australian Army's base model Land Rover 110 "Perentie" vehicle which is officially known as the "Truck, Utility, Lightweight, MC2 Without Winch". The Australian military 110 Land Rovers are the toughest in the world, surpassing for durability and reliability even the UK MOD's "Wolf" Land Rover 110 vehicles. With hundreds of these tough vehicles coming onto the civilian market via Australian military surplus sales, they are an awesome choice as an expedition platform or rugged tourer. This user handbook is an exact reprint of the very scarce originals. It is purposefully priced low so every Perentie Land Rover owner can purchase one to keep in their vehicle's glovebox.

z/OS Version 1 Release 11 Implementation Aug 31 2020 This IBM® Redbooks® publication positions the new z/OS® Version 1 Release 11 for migration by discussing many of the new functions that are available. The goal for the z/OS platform is to eliminate, automate, and simplify tasks without sacrificing z/OS strengths, and to deliver a z/OS management facility that is easy to learn and use. z/OS is a highly secure, scalable, high-performance enterprise operating system on which to build and deploy Internet- and Java™-enabled applications, providing a comprehensive and diverse application execution environment. This book describes the following new and changed functions: - IBM z/OS Management Facility - Allocation enhancements in z/OS V1R11 - BCPii function enhancements in z/OS V1R11 - JES2 and JES3 enhancements - zFS file sharing enhancements - Extended access volume enhancements - Choosing whether to run zAAP work on zIIP processors - System REXX enhancements in V1R11 - RRS global panel options - Service aids enhancements in V1R11 - GRS ENQ contention notification enhancements and analysis for GRS latches - Basic HyperSwap® support enhancement - Message Flood Automation enhancements - Program Management new Binder IEWPARMS - Predictive failure analysis (PFA) - SMF enhancements in V1R11 - System Logger enhancements - XCF/XES enhancements in V1R11 - AutoIPL support - Displaying PDSE caching statistics - ISPF enhancements - IBM Health Checker for z/OS enhancements

Technical Manual User Handbook Truck, Surveillance, Lightweight, Winch, Mc2 Dec 23 2019 This is the User Handbook for the Australian

Army's specialist model RFSV (Regional Force Surveillance Vehicle) Land Rover 110 "Perentie" vehicle which is officially known as the "Truck, Surveillance, Lightweight, with Winch, MC2". The Australian military 110 Land Rovers are the toughest in the world, surpassing for durability and reliability even the UK MOD's "Wolf" Land Rover 110 vehicles and the RFSV is among the toughest and best equipped for remote area travel. With hundreds of these tough vehicles coming onto the civilian market via Australian military surplus sales, they are an awesome choice as an expedition platform or rugged tourer. This user handbook is an exact reprint of the very scarce originals. It is purposefully priced low so every RFSV Perentie Land Rover owner can purchase one to keep in their vehicle's glovebox.

z/OS Version 1 Release 13 Implementation Nov 02 2020 This IBM® Redbooks® publication provides information about installation and migration changes to be aware of if you are responsible for migrating systems from IBM z/OS® V1R10, z/OS V1R11, and z/OS V1R12 to z/OS V1R13. It also highlights actions that are needed to prepare for the installation of z/OS V1R12, including ensuring driving system and target system requirements are met and coexistence requirements are satisfied. There is a special focus on identifying new migration actions that must be performed for selected elements when migrating to z/OS V1R13. The book addresses the following topics: - z/OS V1R13 overview, z/OS V1R13 installation, managing volume backups with fast replication, XCF enhancements, console service enhancements - DFSMSdfp, DFSMSoam, DFSMSHsm, ISPF enhancements, DFSMSrmm enhancements, establishing IBM RACF® security for RRSF TCP/IP connections - GRS enhancements, BCP supervisor, contents supervisor and RSM updates, improved channel recovery,

Service aids enhancements, System Logger - SMF - z/OS UNIX System Services, z/OS UNIX-related applications, RRS, z/OS Management Facility, z/OS HCD and HCM, C language - Storage management enhancements, Common Information Model, Predictive Failure Analysis, Extended Address Volume, BCPII, Capacity Provisioning - System SSL enhancements, UNICODE, IBM Language Environment®, SDSF enhancements, JES2 enhancements, JES3 enhancements, IBM RMFTM enhancements - IBM WebSphere® Application Server OEM, z/OSMF, CIM, and Capacity Provisioning setups - BCPII Metal C example

IBM ProtecTIER Implementation and Best Practices Guide July 23 2022
2022 This IBM® Redbooks® publication provides best practice guidance for planning, installing, configuring, and employing the IBM TS7600 ProtecTIER® family of products. It provides the latest best practices for the practical application of ProtecTIER Software Version 3.4. This latest release introduces the new ProtecTIER Enterprise Edition TS7650G DD6 model high performance server. This book also includes information about the revolutionary and patented IBM HyperFactor® deduplication engine, along with other data storage efficiency techniques, such as compression and defragmentation. The IBM System Storage® TS7650G ProtecTIER Deduplication Gateway and the IBM System Storage TS7620 ProtecTIER Deduplication Appliance Express are disk-based data storage systems: The Virtual Tape Library (VTL) interface is the foundation of ProtecTIER and emulates traditional automated tape libraries. For your existing ProtecTIER solution, this guide provides best practices and suggestions to boost the performance and the effectiveness of data deduplication with regards to your application platforms for your VTL and FSI (systems prior to version 3.4). When you build a ProtecTIER data deduplication environment, this guide can help IT architects and solution designers plan for the best option and scenario for data deduplication for their environments. This book can help you optimize your deduplication ratio, while reducing the hardware, power and

cooling, and management costs. This Redbooks publication provides expertise that was gained from an IBM ProtecTIER System Client Technical Specialist (CTS), Development, and Quality Assurance teams. This planning should be done by the Sales Representative or IBM Business Partner, with the help of an IBM System CTS or IBM Solution Architect.

IBM System Storage TS7600 with ProtecTIER Version 3.3 B 25

2022 This IBM® Redbooks® publication describes the IBM solution for data deduplication, the IBM System Storage® TS7650G IBM ProtecTIER® Deduplication Gateway, and the IBM TS7620 ProtecTIER Deduplication Appliance Express. This solution consists of the IBM System Storage ProtecTIER Enterprise Edition V3.3 software and the IBM System Storage TS7600 family of products. They are designed to address the disk-based data protection needs of enterprise data centers. We describe the components that make up IBM System Storage TS7600 with ProtecTIER and provide extensive planning and sizing guidance that enables you to determine your requirements and the correct configuration for your environment. We then guide you through the basic setup steps on the system and on the host. We also describe all operational tasks that are required during normal day-to-day operation or when upgrading your TS7600 products. All available models of the ProtecTIER deduplication system can now be ordered in a configuration to operate in one of the following modes for which we provide setup, configuration and usage guidelines for your business needs: The Virtual Tape Library (VTL) interface is the foundation of ProtecTIER and emulates traditional automated tape libraries. The Symantec NetBackup OpenStorage (OST) API can be integrated with Symantec NetBackup to provide backup-to-disk without having to emulate traditional tape libraries. The newly available File System Interface (FSI) supports Common Internet File System (CIFS) and

Network File System (NFS) as a backup target. This publication is intended for system programmers, storage administrators, hardware and software planners, and other IT personnel that are involved in planning, implementing, and the use of the IBM deduplication solution. It also is intended for anyone seeking detailed technical information about the IBM System Storage TS7600 with ProtecTIER.

Technical Manual User Handbook Truck, Utility, Lightweight, Ffr, Mc2
Jan 24 2020 This is the User Handbook for the Australian Army's communications model Land Rover 110 "Perentie" vehicle which is officially known as the "Truck, Utility, Lightweight, FFR, MC2 Without Winch." The Australian military 110 Land Rovers are the toughest in the world, surpassing for durability and reliability even the UK MOD's "Wolf" Land Rover 110 vehicles. The FFR (Fitted For Radio) models are 12 or 24v systems with junction boxes and can accommodate a total of four 12v batteries. With hundreds of these tough vehicles coming onto the civilian market via Australian military surplus sales, they are an awesome choice as an expedition platform or rugged tourer already set up for remote area power. This user handbook is an exact reprint of the very scarce originals. It is purposefully priced low so every FFR Perentie Land Rover owner can purchase one to keep in their vehicle's glovebox.
