e-Jeanne was a precursor of currently popular ?blogs, ? although we called her an ?e-zine.? She was assembled early in the morning (right after my

morning devotions ? in fact, I realize that many of my morning devotions somehow crept into the e-Editorials), and then forwarded by e-mail to over 300 people all around the world. I did this two or three days a week for 10 years. Like I said, maybe I am a little crazy. ... 2004 was a lengthy year, filled with commentary about the impending American Presidential Election (yes, George W. Bush won again), fluctuating health issues, and much sharing of prayer requests and praise reports among the faithful and beloved Readers. 2004 was so long that I had to split it into two books; this is Part Two, covering July through December. Like its sister books, e-Jeanne: 2004 (Part Two) comes out looking like a fair-sized phone book; you'll need strong arms and strong hands to hold it while reading ... and I strongly suggest you have a sturdy bookmark. A Violent World analyzes images on global CNN, Israeli IBA, and Palestinian PATV that contribute to how the current violence in the Middle East is framed. Nitzan Ben-Shaul draws from critical media theory and approaches out of cinema studies to examine how dominant ideologies are embedded in mainstream TV news. He focuses on the American elites' global ideology and the conflicting, dominant national-peripheral ideologies of Israeli-Palestinian elites, and his in-depth study further offers a new model of analysis for contemporary television news. Focuses on the recent "Enemy Combatant Cases" to provide a stern critique of the legal and constitutional basis for the enormous expansion of presidential power during the Bush administration's "War on Terror," and the challenges (especially in the Supreme Court) that such expansion has inspired. The East Fork of the Bitterroot River originates from the Sapphire Mountains and Anaconda Pintler Wilderness Areas. The West Fork of the Bitterroot River originates from the Bitterroot Mountains and the Selway - Bitterroot Wilderness Areas. The West Fork of the Bitterroot River was dammed in the early 1900's creating Painted Rocks Reservoir. Below Painted Rocks Reservoir lies the tail-water fishery section of the West Fork of the Bitterroot River, which flows downstream to its confluence with the East Fork of the Bitterroot River north of the town of Conner, Montana. The East Fork of the Bitterroot River is still a free flowing stream. The Wild Fires of "2000" burned much of the timberland in the headwaters of both drainages. During spring run-off and summer thunderstorms the East Fork of the Bitterroot River turns turbid from the ash that is washed into the river from the tributaries flowing into the river. The West Fork of the Bitterroot River however remains clear, Painted Rocks Reservoir allows the headwater run-off to settle out within the reservoir before entering the West Fork of the Bitterroot River below the dam. The East Fork of the Bitterroot River confluence with the West Fork of the Bitterroot River forms the mainstem of the Bitterroot River, which flows northerly to its confluence with the Clarkfork River outside the city of Missoula, Montana. The Bitterroot River trout fishery has experienced depravation from mankind since the early 1900's when Marcus Daly "The Copper

King" and others commissioned the building of an extensive network of irrigation canals throughout the Bitterroot Valley. The largest canal is the Big Ditch, which runs northerly over seventy-five miles in length traversing the eastside of the Bitterroot River Valley. They built large diversion dams across the Bitterroot River and diverted most of the tributaries in the Bitterroot Valley. These diversion dams dewater the Bitterroot River severely during the summer months. Most of the Bitterroot Tributaries become dry during critical spawning periods for Rainbow Trout, Westslope Cutthroat Trout, Brown Trout and Bull Trout. With these depravation problems on the Bitterroot River there are still some sections of the Bitterroot River that offer good fishing for Rainbow Trout, Brown Trout and Westslope Cutthroat Trout and to a lesser degree Bull Trout. The Bitterroot River at time offers some excellent dry fly fishing.
