**Upstream** Sep 26 2022

**Basic Spanish** Nov 28 2022 Contains lessons on Spanish grammar followed by related exercises, with reading texts that encourage an understanding of the culture of Spanish-speaking countries.

**Upstream** Oct 27 2022 This series is specially designed for students from absolute beginner to pre-intermediate level. Each book consists of five modules and provides systematic preparation in all four language skills - listening, speaking, reading and writing - required at these levels. The Student's Book and the Workbook are designed to be covered in approximately 60 to 80 hours of classroom work.

*Upstream advanced C1* Jun 23 2022 The series is specially designed for students from intermediate to proficiency level. Each book consists of five modules and provides systematic preparation in all four language skills - listening, speaking,

reading and writing - required at these levels. The Student's Book and the Workbook are designed to be covered in approximately 100 to 120 hours of classroom work.

**IGCSE and O Level Economics** Jun 11 2021 Accessible content for students studying Cambridge IGCSE Economics. This book, covering both the Cambridge IGCSE and O Level courses of the Cambridge syllabuses, draws extensively on real world examples to explore economic concepts, theories and issues. A number of activities, based on examples from around the world, are designed to facilitate students' easy understanding of the contents. Principles and practices have been explained in simple language and lucid style to enhance the accessibility of the content to students whose first language is not English.

Complete CAE Class Audio CDs (3) Jul 12 2021 Complete CAE is a course for the 2008 updated CAE exam. Informed by the Cambridge Learner Corpus and providing a complete CAE exam paper specially prepared by Cambridge ESOL, it is the most authentic exam preparation course available. This topic-based course covers every part of the CAE exam in detail, ensuring that students are fully equipped to tackle each part of every paper. The Class Audio CDs contain all the audio for the Students' Book.

**Traveller Elementary A1.2** Dec 25 2019

**On Screen B2** Sep 02 2020

**Open Channel Hydraulics** Feb 07 2021 Open Channel Hydraulics is written for undergraduate and graduate civil engineering students, and practicing engineers. Written in clear and simple language, it introduces and explains all the main topics required for courses on open channel flows, using numerous worked examples to illustrate the key points. With coverage of both introduction to flows, practical guidance to the design of open channels, and more advanced topics such as bridge hydraulics and the problem of scour, Professor Akan's book offers an unparalleled user-friendly study of this important subject ·Clear and simple style suited for undergraduates and graduates alike ·Many solved problems and worked examples ·Practical and accessible guide to key aspects of open channel flow

*English Unlimited B1+ -Intermediate / Coursebook with E-Portfolio DVD-ROM + 3 Audio-CDs* Jan 18 2022

**Solutions - Advanced** Jun 30 2020 The Solutions 2nd Edition Workbook supports the Student's Book content with plenty of extra practice and revision.

Gateway B1 Apr 28 2020 Helps students prepare and practise for their school-leaving exams and equips them with lifelong learning and study skills. Taking an inductive approach to Grammar, this title revises and extends the students' knowledge of grammar and vocabulary through varied skills-based activities that recycle, revise, evaluate and develop language skills.

**Straightforward** Oct 15 2021 Ideal for teachers looking for an easy-to-use adult general English course, Straightforward, is flexible and simple to use, based around

12 topics per level. It always takes the most suitable methodological approach to what is being taught, resulting in the perfect balance of skills and language work. Extra section including functional language, writing skills, grammar notes and word lists round off the Students Book. Key Features: Simple enough for new teachers to use; flexible enough for the

*Introduction to Interactive Boundary Layer Theory* May 10 2021 One of the major achievements in fluid mechanics in the last quarter of the twentieth century has been the development of an asymptotic description of perturbations to boundary layers known generally as 'triple deck theory'. These developments have had a major impact on our understanding of laminar fluid flow, particularly laminar separation. It is also true that the theory rests on three quarters of a century of development of boundary layer theory which involves analysis, experimentation and computation. All these parts go together, and to understand the triple deck it is necessary to understand which problems the triple deck resolves and which computational techniques have been applied. This book presents a unified account of the development of laminar boundary layer theory as a historical study together with a description of the application of the ideas of triple deck theory to flow past a plate, to separation from a cylinder and to flow in channels. The book is intended to provide a graduate level teaching resource as well as a mathematically oriented account for a general reader in applied mathematics, engineering, physics or scientific computation.

*Messages 2 Student's Book* Jan 06 2021 An attractive and innovative four-level course for lower-secondary students. Each unit of the Student's Book is divided into 3 manageable steps with clear aims and outcomes. Students can see quick results through regular 'Use what you know' sections at the end of each step. 'Life and culture' sections and a continuous story provides rich reading material while stimulating students' imaginations. There is a variety of exercises where students can work to their own level, making the course ideal for mixed ability classes. Coursework activities per module allow students to build up portfolios of work while online 'Infoquests' send students on a journey of discovery in English.

*CRISPR-Cas Systems* Nov 04 2020 CRISPR/Cas is a recently described defense system that protects bacteria and archaea against invasion by mobile genetic elements such as viruses and plasmids. A wide spectrum of distinct CRISPR/Cas systems has been identified in at least half of the available prokaryotic genomes. On-going structural and functional analyses have resulted in a far greater insight into the functions and possible applications of these systems, although many secrets remain to be discovered. In this book, experts summarize the state of the art in this exciting field.

**Upstream. Pre-intermediate. Student's book. Per le Scuole superiori** Dec 29 2022 This series is specially designed for students from absolute beginner to pre-intermediate level. Each book consists of five modules and provides systematic

preparation in all four language skills - listening, speaking, reading and writing - required at these levels. The Student's Book and the Workbook are designed to be covered in approximately 60 to 80 hours of classroom work.

English Collocation in Use. Per Le Scuole Superiori Oct 23 2019 Collocations are combinations of words which frequently appear together. Using them makes your English sound more natural. Presents and explains approximately 1,500 word combinations in typical contexts using tables, charts, short texts and dialogues.

150 Gems of Irish Music for Flute Nov 23 2019 Grey Larsen, in the 150 Gems collections, has given us a most welcome follow-up to his encyclopedic volume, *The Essential Guide to Irish Flute and Tin Whistle* (Mel Bay Publications, 2003) and *The Essential Tin Whistle Toolbox* (Mel Bay Publications, 2004). The Gems feature not only meticulously-selected tunes, but represent the first major offerings that use Larsen's innovative system of notating Irish ornamentation. These books and online audio will help players gain a deeper understanding of the Irish musical tradition as well as provide new material to enhance the experience of the solo player and Irish session participant alike. Includes access to online audio.

*Life - Pre-Intermediate* Aug 25 2022 *Life* is an exciting new six-level adult series that turns learning English into an exploration of the world we live in by drawing on National Geographic content such as images, articles and videos. Student's Book contains: engaging tasks with fascinating NG content ; review at end of each unit ; grammar reference with practice activities. CEF: A1-C1.

*Close-Up C1 Teacher's Book* Aug 13 2021 With a new component array and strong digital support, the new edition of *Close up* has been fully updated to be in line with the new First for Schools 2015 specifications. *Close up* is still as interesting, topical and up to date as ever with spectacular National Geographic photography and facts that have been carefully selected to appeal to the inquisitive minds of young teenagers.

Upstream Petroleum Fiscal and Valuation Modeling in Excel Mar 20 2022 Please contact the authors at [upstream.petroleum.in.excel@gmail.com](mailto:upstream.petroleum.in.excel@gmail.com) for details of how to access the trial version of *Crystal Ball*, as well as the Excel and other files which are \*not\* part of the e-book version download. "This is a book no deal team should be without. It is a must for those involved in upstream oil and gas transactions, planning, budgeting, investment appraisal and portfolio management. Its step-by-step approach cuts through complexity, making it comprehensive and understandable by a wide range of users with a wide range of abilities. It can be used as a textbook, an introductory primer or as a handbook that you can dip in and out of or read cover to cover." —Michael Lynch—Bell, Senior Advisor, Oil & Gas, Ernst & Young LLP; ex-officio Chairman, UN Expert Group on Resource Classification In the upstream petroleum industry, it is the value of post-tax cashflows which matters most to companies, governments, investors, lenders,

analysts, and advisors. Calculating these cashflows and understanding their “behavior,” however, is challenging, as the industry’s specialized fiscal systems can be complex, jargon-laden, and sometimes seem to be a “world of their own”. *Upstream Petroleum Fiscal and Valuation Modeling in Excel: A Worked Examples Approach* demystifies fiscal analysis which, unlike disciplines such as Earth sciences and engineering, can be learned from a book. Written in plain English for laymen and for experienced practitioners alike, it is a reader-friendly, clear, practical, step-by-step hands-on guide for both reference and self-paced study. The book does not catalogue the 100+ different petroleum fiscal regimes in use at the time of writing. Rather, drawing on the authors’ combined 48 years’ experience, it takes a more timeless, generic treatment, by covering the most common variants of royalties, taxation, production sharing arrangements, bonuses and abandonment funding, through a dual approach: first, showing how to model them in Excel, and then providing interactive exercises to prompt (and answer) questions that analyze impacts on cashflows. In addition to the main text, the book consists of over 120 Excel files (ranging from modular examples to full models) in Excel 2007 and 2003 formats; over 400 pages of supplementary PDF files; VBA features to enhance model functionality; and an introduction to risk modeling with exercises for the included trial version of Oracle’s Crystal Ball software. It offers both a wealth of content and models equal to or surpassing what is available from fiscal modeling courses costing several times more; and greater insights into underlying calculations than commercially available “black box” fiscal software. New US Securities and Exchange Commission (SEC) rules planned for 2013 will force petroleum companies to disclose more fiscal information on an individual country basis. This will make it more important than ever for analysts to understand how to model oil and gas terms and the potential impacts of the disclosed government payments on future oil and gas company profitability. Due to the heavy use of graphics and cross references used in this particular text, some readers might find that the printed book offers a more optimal reading experience than certain e-formats particularly with the Kindle eMobi format.

**Study and Master Life Sciences Grade 11 CAPS Study Guide** Feb 25 2020

*Italian Reader - Short Stories (English-Italian Parallel Text)* Aug 01 2020 This book contains a selection of 16 finest short stories which have been adapted from originals written by the world's greatest storytellers such as: O. Henry, W.S. Maugham, R. Goldberg and others. There are also 5 mini-stories presented at the beginning of the book as a "warm-up exercise". The stories have been thoroughly adapted (to preserve the gist of the original), translated into Italian language and presented as English - Italian parallel text. The book is intended mainly for Elementary to middle-Intermediate level learners.

**Official Gazette of the United States Patent and Trademark Office** Mar 28 2020

*Cambridge English Empower Elementary Presentation Plus with Student's Book and Workbook* Nov 16 2021 Cambridge English Empower is a general adult course that combines course content from Cambridge University Press with validated assessment from the experts at Cambridge English Language Assessment. Elementary Presentation Plus provides the complete Elementary Student's Book content and the Workbook content with built-in annotation tools, embedded audio, and class video in an easy-to-operate format for interactive whiteboards or computers and projectors.

*The Mindfulness and Acceptance Workbook for Social Anxiety and Shyness* Dec 05 2020 Shyness is a common problem that comes with a high price. If you suffer from shyness or social anxiety you might avoid social situations and may have trouble connecting with others due to an extreme fear of humiliation, rejection, and judgment. As a shy person, you may also experience panic attacks that make it even more likely that you'll avoid social situations. With *The Mindfulness and Acceptance Workbook for Social Anxiety and Shyness*, the authors' acceptance and commitment therapy (ACT) program for overcoming shyness has become available to the public for the first time. This program has been found to be highly effective in research studies for the treatment of social anxiety disorder and related subclinical levels of shyness. In the first section, you will confront performance fears, test anxiety, shy bladder, and interpersonal fears—fundamental symptoms of social anxiety. The second part helps you learn psychological flexibility to improve your ability to accept the feelings, thoughts, and behavior that may arise as you learn to work past your anxiety. By keeping your values front and center, you will gradually learn to move beyond your fears and toward greater social confidence. This book has been awarded The Association for Behavioral and Cognitive Therapies Self-Help Seal of Merit — an award bestowed on outstanding self-help books that are consistent with cognitive behavioral therapy (CBT) principles and that incorporate scientifically tested strategies for overcoming mental health difficulties. Used alone or in conjunction with therapy, our books offer powerful tools readers can use to jump-start changes in their lives.

**The Heliosphere in the Local Interstellar Medium** Oct 03 2020 Comprises the proceedings from the First International Space Science Institute (ISSI) Workshop held in November, 1995 in Bern, Switzerland. Written both by space physicists and astronomers, the roughly 40 contributions provide an overview of the current state of knowledge concerning the density, velocity, temperature, composition, and morphology of the local interstellar medium (LISM) and how it interacts with the heliosphere. Contributions are in four sections: the heliosphere, the termination shock, the local interstellar medium, and interaction between the heliosphere and LISM. Also includes a keynote speech given by Sir Herman Bondi titled "Science as an Adventure." Reprinted from *Space Science Reviews*, v. 78, nos. 1-2, 1996. Lacks a subject index. Annotation copyrighted by Book News, Inc., Portland, OR

*Plant Breeding Reviews* Jan 26 2020 *Plant Breeding Reviews* presents state-of-the-art reviews on plant breeding and genetics covering horticultural, agronomic and forestry crops, incorporating both traditional and molecular methods. The contributions are authored by world authorities, anonymously reviewed, and edited by Professor Jules Janick of Perdue University, USA. The series is an indispensable resource for crop breeders, plant scientists, and teachers involved in crop improvement and genetic resources. Initiated in 1983, *Plant Breeding Reviews* is published in the form of one or two volumes per year. Recently published articles include: Epigenetics and Plant Breeding (v30) Enhancing Crop Gene Pools with Beneficial Traits Using Wild Relatives (v30) Coffee Germplasm Resources, Genomics and Breeding (v30) Molecular Genetics and Breeding for Fatty Acid Manipulation in Soybean (v30) Breeding Southern Highbush Blueberries (v30) Development of Fire Blight Resistance by Recombinant DNA Technology (v29)

**Destination B1** Apr 21 2022 *Destination B1: Grammar and Vocabulary* has been designed for intermediate students at B1 (Threshold) level on the Council of Europe's Common European Framework Scale. It is the ideal grammar and vocabulary practice books for all students preparing to take any B1 level exam: e.g. Cambridge PET and for students working towards B2 level exams in the future.

*Get Ready for International Business 2* May 30 2020 *Get Ready for International Business* helps pre-work students and those new to the world of work to use English in the workplace by exposing them to a variety of business and workplace situations and enabling them to practice using English creatively in simulated business contexts. The Teacher's Book contains teaching notes and answer keys.

*Gateway B1 Student Book* Sep 21 2019 *Gateway* is an academically-rich five-level course designed to lead teenage students to success in school-leaving and university entrance exams and prepare them for university and the world of work.

**Activate! B1 Workbook with Key for Pack** Dec 17 2021 *Activate B1* is ideal for teenage students who are preparing for all B1 level examinations.

*Upstream* Mar 08 2021

*Face2face Pre-intermediate Workbook Without Key* Sep 14 2021 *Face2face Pre-intermediate* is an easy-to-teach General English course that helps adults and young adults to speak and listen with confidence. The DVD-ROM in the Student's Book includes consolidation activities and electronic portfolio for learners to track their progress with customisable tests and grammar and vocabulary reference sections.

*Upstream* Feb 19 2022 The series is specially designed for students from intermediate to proficiency level. Each book consists of five modules and provides systematic preparation in all four language skills - listening, speaking, reading and writing - required at these levels. The Student's Book and the Workbook are designed to be covered in approximately 100 to 120 hours of classroom work.
