Manual for (Relatively) Painless Medical Spanish Apr 24 2022 Spanish-speaking patients are no rarity in United States hospitals and clinics, as many English-speaking health care providers have discovered. To help these providers better communicate with the patients they serve, Ana Malinow Rajkovic has prepared the Manual for (Relatively) Painless Medical Spanish, a lively and innovative self-teaching guide to the grammar, pronunciation, and medical vocabulary of Spanish. Presented in a systematic and entertaining fashion, twelve lessons cover some of the most commonly encountered

situations. These include the family clinic, the emergency room, appendicitis, the chat, pregnancy, family planning, pelvic inflammatory disease and urinary tract infection, depression, children with asthma, patients with angina, explaining a venipuncture and a spinal tap, and patients with shortness of breath. Each lesson with a bilingual interview that includes vocabulary and grammar introduced in the lesson. A guide to the medical history and physical examination appears in English and Spanish in the appendix. Excellent in the classroom or for independent learning, this Manual will enable health care providers better to understand and supply the needs of Spanish-speaking patients.

Spanish for Mental Health Professionals Mar 29 2020 This book and CD package is similar in design to other books in the Paso a Paso Series for Health Care Professionals. This package is specifically for mental health workers attempting to break through language and cultural barriers between English- and Spanish-speaking participants. The suggested application is a small group setting in the workplace in which a fluent Spanish speaker serves as a facilitator at one hour sessions held once a week. The learners are expected to work daily on exercises and practice listening and responding to the exercises. The premise is that the beginning learner will not be alone in a situation where a conversation is beyond their ability; the novice speaker will be part of a team and will acquire greater competency through active, on-the-job speaking and listening. All participants, often non-English-speaking newcomers are isolated, separated from the family support systems they once enjoyed in their native countries. They are overwhelmed and realize assistance is available to address the depression, anger, and frustration that they are feeling. This handbook and CD set will help mental health and social workers reach across the language barriers to help their clients.
