[Gun Trader's Guide, Thirty-Eighth Edition](#) Aug 22 2022 If you are seeking a comprehensive reference for collectible gun values, the Gun Trader's Guide is the only book you need. For more than half a century, this guide has been the standard reference for collectors, curators, dealers, shooters, and gun enthusiasts. Updated annually, it remains the definitive source for making informed decisions on used firearms purchases. Included are extensive listings for handguns, shotguns, and rifles from some of the most popular manufacturers, including Beretta, Browning, Colt, Remington, Savage, Smith & Wesson, Winchester, and many more. This thirty-eighth edition boasts dozens of new entries since last year's edition and includes a complete index and a guide on how to properly and effectively use this book in order to find the market value for your collectible modern firearm. Determine the new prices for any firearm you want to sell or trade, whether its condition is in box, excellent, or good. With new introductory materials that every gun collector and potential buyer should read, this book is the ultimate guide to purchasing classic or discontinued firearms. No matter what kind of modern firearm you own or collect, the Gun Trader's Guide should remain close at hand. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

[Gun Trader's Guide](#) Dec 14 2021 A guide to the identification of 4,400 firearms with current market values.

[Gun Trader's Guide to Rifles](#) Dec 02 2020 Gun Trader's Guide is the bestselling collectible firearms reference, having sold over two million copies in thirty-five editions. The guide includes prices for all types

of firearms, but what if you are only interested in buying, selling, and collecting rifles? Then Gun Trader's Guide to Rifles is the book for you! Featuring all your favorite rifles from the original Gun Trader's Guide, plus hundreds more, this is the only reference you'll ever need. Veteran editor and firearms enthusiast Stephen D. Carpenter has compiled and cataloged discontinued and collectible rifles from your favorite manufacturers, such as Anschütz, Browning, Colt, Marlin, Remington, Ruger, Savage, Weatherby, Winchester, and more. Complete with specs and price gradients based on the condition of the rifle, collecting and selling your firearms will be easier than ever. Carpenter also provides valuable tips on how to use the guide, as well as articles on various collectible rifles and the art of rifle trading. Also step behind the scenes to learn what dealers are looking for, what they want in your rifle, and what's required to become a dealer, which should help you when buying, trading, or selling your rifles. Whether you are a first-time rifle-owner or a longtime rifle enthusiast, Gun Trader's Guide to Rifles is an invaluable tool to read before stepping foot in that dealer's store or attending a gun show.

[The Naval War in the Baltic, 1939-1945](#) May 27 2020 A military historian and naval warfare expert delivers

a revealing history of the Baltic Sea Campaigns and their significance throughout WWII. From the Battle of Westerplatte on the Polish coast in 1939 to the thousands of German refugees lost at sea in 1945, the Baltic witnessed continuous fighting throughout the Second World War. This chronicle of naval warfare in the region merges such major events as the Siege of Leningrad, the Soviet campaign against Sweden, the three wars in Finland, the Soviet liberation of the Baltic states, the German evacuation of two million people from the East, and the Soviet race westwards in 1945. Naval historian Poul Grooss explains the political and military backgrounds of the war in this theatre while also detailing the ships, radar, artillery, mines and aircraft employed there. He also offers fascinating insights into Swedish cooperation with Nazi Germany, the Germans' use of the Baltic as a training ground for the Battle of the Atlantic, the secret weapons trials in the remote area of Peenemunde, and the Royal Air Force mining campaign that reduced the threat of German submarine technology. A major contribution to the naval history of this era, Naval War in the Baltic demonstrates the extent to which the Baltic Sea Campaigns shaped the Second World War

*Sustainable Solutions* Mar 05 2021 Toughening environmental legislation, national and supra-national environmental product policies and growing customer demands are focusing the attention of companies on the environmental and broader social issues linked to the creation and delivery of their products and services. There is now an urgent need for appropriate management structures, practical tools and increased awareness among all stakeholders in the product development process and throughout the entire product life-cycle. These are huge issues - with major implications for corporate management, design and production strategies. Sustainable Solutions provides state-of-the-art analysis and case studies on why and how cutting-edge companies are developing new products and services to fit "triple-bottom-line" expectations. The book is split into three sections: first, the broad issues of business sustainability are examined with focus on sustainable production and consumption and consideration of North-South issues. Second, the book tackles the major methodologies and approaches toward organising and developing more sustainable products and services. Third, an outstanding collection of global case studies highlights the progress made by a wide range of companies toward dematerialisation, eco-innovation and design for durability. Finally, the book collects together a comprehensive list of web addresses of useful organisations. Practical and comprehensive, Sustainable Solutions will be essential reading for corporate managers, product designers, R&D staff, academics and all individuals interested in a definitive source on how new product and service development can and is contributing toward tacking the challenge of sustainable development.

**Sharing the Harvest** Oct 20 2019 To an increasing number of American families the CSA (community supported agriculture) is the answer to the globalization of our food supply. The premise is simple: create a partnership between local farmers and nearby consumers, who become members or subscribers in support of the farm. In exchange for paying in advance--at the beginning of the growing season, when the farm needs financing--CSA members receive the freshest, healthiest produce throughout the season and keep money, jobs, and farms in their own community. In this thoroughly revised and expanded edition of a Chelsea Green classic, authors Henderson and Van En provide new insight into making CSA not only a viable economic model, but the right choice for food lovers and farmers alike. Thinking and buying local is quickly moving from a novel idea to a mainstream activity. The groundbreaking first edition helped spark a movement and, with this revised edition, Sharing the Harvest is poised to lead the way toward a revitalized agriculture.

**A History of Corporate Governance around the World** Feb 22 2020 For many Americans, capitalism is a dynamic engine of prosperity that rewards the bold, the daring, and the hardworking. But to many outside

the United States, capitalism seems like an initiative that serves only to concentrate power and wealth in the hands of a few hereditary oligarchies. As *A History of Corporate Governance around the World* shows, neither conception is wrong. In this volume, some of the brightest minds in the field of economics present new empirical research that suggests that each side of the debate has something to offer the other. Free enterprise and well-developed financial systems are proven to produce growth in those countries that have them. But research also suggests that in some other capitalist countries, arrangements truly do concentrate corporate ownership in the hands of a few wealthy families. *A History of Corporate Governance around the World* provides historical studies of the patterns of corporate governance in several countries-including the large industrial economies of Canada, France, Germany, Italy, Japan, the United Kingdom, and the United States; larger developing economies like China and India; and alternative models like those of the Netherlands and Sweden.
