Learn how to read music, play with both hands at the same time, play chords and scales, as well as many more exciting piano techniques!. This multidisciplinary collection examines the connections between education, migration and translation across school and higher education sectors, and a broad range of socio-geographical contexts. Organised around the themes of knowledge, language, mobility, and practice, it brings together studies from around the world to offer a timely critique of existing practices that privilege some ways of knowing and communicating over others. With attention to issues of internationalisation, forced migration, minorities and indigenous education, this volume asks how the dominance of English in education might be challenged, how educational contexts that privilege bi- and multi-lingualism might be re-imagined, what we might learn from existing educational practices that privilege minority or indigenous languages, and how we might exercise 'linguistic hospitality' in a world marked by high levels of forced migration and educational mobility. As such, it will appeal to scholars across the social sciences with interests in education, migration and intercultural communication.

Thanks to How Equal Temperament Ruined Harmony, "we may soon be able to hear for ourselves what Beethoven really meant when he called B minor 'black'" (Wall Street Journal). Classic Keys is a beautifully photographed and illustrated book focusing on the signature rock keyboard sounds of the 1950s to the early 1980s. It celebrates the Hammond B-3 organ, Rhodes and Wurlitzer electric pianos, the Vox Continental and Farfisa combo organs, the Hohner Clavinet, the Mellotron, the Minimoog and other famous and collectable instruments. From the earliest days of rock music, the role of keyboards has grown dramatically.

Advancements in electronics created a crescendo of musical invention. In the thirty short years between 1950 and 1980, the rock keyboard went from being whatever down-on-its-luck piano awaited a band in a bar or concert hall to a portable digital orchestra. It made keyboards a centerpiece of the sound of many top rock bands, and a handful of them became icons of both sound and design. Their sounds live on: Digitally, in the memory chips of modern keyboards, and in their original form thanks to a growing group of musicians and collectors of many ages and nationalities. *Classic Keys* explores the sound, lore, and technology of these iconic instruments, including their place in the historical development of keyboard instruments, music, and the international keyboard instrument industry. Twelve significant instruments are presented as the chapter foundations, together with information about and comparisons with more than thirty-six others. Included are short profiles of modern musicians, composers, and others who collect, use, and prize these instruments years after they went out of production. Both authors are avid musicians, collect and restore vintage keyboards, and are well-known and respected in the international community of web forums devoted to these instruments. Glenn Gould was Canada's greatest musician. From his home in Toronto, he rose to be a world-famous concert pianist and recording artist of the very top rank. Gould's eccentric attitudes and behaviours were well known, but the musical world was astonished when, in his mid-20s, he announced that he had permanently retired from the concert hall. Instead, Gould focused on the recording studio, on radio and television, and on exploring his fascination with the relation between audience and performer. Through wide and innovative use of electronic technologies, he was able to reach enormous audiences before his untimely death. *Glenn Gould: Music & Mind* focuses not on the details of Gould's life but on his ideas, offering unique insights into this remarkable Canadian and his life's work. Includes bibliographies and discographies of Gould's work. If you enjoyed *LET'S PLAY PIANO Part One* you will like *Part Two* even more. Welcome to the surreal world of *Boom*, where civil servants wake the dead, corpses are terrified of cremation, old women are besieged in their homes, and Ah Bengs still dream of being Superman. *Boom* tells the story of an elderly woman and her property agent son in Singapore, who are struggling over the potential en bloc sale of their home. Their destinies become interwoven with that of an idealistic civil servant, Jeremiah, who is facing the greatest challenge of his career—persuading a reluctant corpse to yield its memories. *Boom* is a quirky yet poignant tale about the relocation of both dead and living, and how personal stories get left behind in the inexorable march of progress. Written by economist-turned-playwright Jean Tay, *Boom* was conceptualised at the Royal Court Theatre in London in 2007, and developed and staged by the Singapore Repertory Theatre in September 2008.
