Modern computer technology has opened up several new possibilities for optimizing the administration of educational and psychological tests. In computer adaptive testing (CAT), tests are automatically tailored to the proficiency level of the individual examinees. Currently, nearly all large-scale testing programs in the western world are already adaptive or in the process of becoming so. Written by active CAT researchers from Europe and North America, the chapters offer a comprehensive introduction to the latest developments in the theory and practice of CAT. The book can be used both as a basic reference on the state of the art in CAT and a

valuable resource in graduate courses on test theory. The theoretical chapters in this book cover such topics as item selection and ability estimation, item pool development and maintenance, item calibration and model fit, and testlet-based adaptive testing. The practical chapters describe the operational aspects of existing large-scale CAT programs. Vols. 1-64 include extracts from correspondence. No. 104-117 contain also the Regents bulletins. Providing an in-depth historical understanding of the subject, the author charts the evolution of language testing from its earliest existence as a coherent activity in the final years of the nineteenth century to its current status as a legitimate focus for specialization and inquiry. He also suggests future directions in the field such as computer-assisted testing. Presents subject review, full-length practice tests with answer explanations, and test-taking strategies to help readers prepare for and score higher on the high school equivalency test. If you need to know it, it's in this book. Together with a list of auxiliary and cooperating societies, their officers, and other data. Explains foundational experiments and basic theories of cognition, and explains how they relate, in a clear, structured narrative. Language acquisition is a human endeavor par excellence. As children, all human beings learn to understand and speak at least one language: their mother tongue. It is a process that seems to take place without any obvious effort. Second language learning, particularly among adults, causes more difficulty. The purpose of this series is to compile a collection of high-quality monographs on language acquisition. The series serves the needs of everyone who

wants to know more about the problem of language acquisition in general and/or about language acquisition in specific contexts. Together with a list of auxiliary and cooperating societies, their officers, and other data. Provides a general review of the test, basic grammatical terms, vocabulary, and practice tests.
